

Best Practices Form

Instructions: *Submit this form as a separate attachment with your completed Program Review.* Programs often do something particularly well; usually they have learned through assessment—sometimes trial and error—what solves a problem or makes their programs work so well. These are often called **Best Practices** and can help others. Please share the practices your program has found to be effective. The contact information lets others know whom to contact for more information. This part of Program Review is linked to the Student Success Strategic Goal: “Become an exemplary model of student success by developing and implementing best practices.” For examples of Best Practices visit the [Program Review Committee’s website](#).

Program/Department: **Manufacturing Technology/Engineering and Industrial Technology department**

Name of Chair/Director/Manager: Sean Caras Email Address: scaras@bakersfieldcollege.edu Phone: 395-4393

Best Practice(s):

I utilize the Moodle system for supplemental learning for each of my manufacturing classes. The content that I post for student includes:

- Training videos on YouTube that cover manual machining and CNC machining
- Blueprint reading exercises from Wisc-Online (<http://www.wisc-online.com/ListObjects.aspx>)
- Links to articles from machine and tool manufacturers as well as technical journals
