Program Name: Academic Senate

Program Type: ☐ Instructional ☐ Student Affairs ☐ Administrative Service ☒ Other

Bakersfield College Mission: Bakersfield College provides opportunities for students from diverse economic, cultural, and educational backgrounds to attain Associate and Baccalaureate degrees and certificates, workplace skills, and preparation for transfer. Our rigorous and supportive learning environment fosters students’ abilities to think critically, communicate effectively, and demonstrate competencies and skills in order to engage productively in their communities and the world.

Describe how the program supports the Bakersfield College Mission: The purpose of the Academic Senate is to provide the means to represent faculty in the formation and implementation of policy on academic and professional matters. In implementing policies, the Senate will represent the academic Senate to the President of the college and to the Board of Trustees with respect to academic and professional matters and exercise powers granted by the California Education Code and the Board of Governors. The Senate shall assume primary responsibility in the areas of curriculum and academic standards as specified in the California Education Code.

Program Mission Statement: The Senate is the sole voice of the faculty and makes recommendations to the Board of Trustees or designee with respect to academic and professional matters [10+1]. District board policy states that the Board of Trustees shall rely primarily upon the recommendations of the Senate in these areas. Rely primarily means:
- Recommendations of the Senate will normally be accepted
- Only in exceptional circumstances and for compelling reasons will the recommendations not be accepted
- If not accepted, board/designee shall communicate its reasons in writing, if requested (see Title §53200)

**Best Practices:**  
Programs often do something particularly well; usually they have learned through assessment – sometimes trial and error – what solves a problem or makes their programs work so well. These are often called Best Practices and can help others. Please share the practices your program has found to be effective.

- Practice of written reports from committee chairs, officers and conference attendees. Reports are collected monthly and year-end for documentation and assists in annual reporting.  
- Senate committee website/Executive Board SharePoint posting of document/record storage for communication, transparency, accountability, and adhering to Roberts Rules  
- Secretary Senate Meeting Summaries for communication and engagement; Secretary proof read of minutes for accuracy

**Program Analysis:**  
Take a look at your trend data (all programs should have some form of data that is used to look at changes over time).

1. Please report on any unexpected changes or challenges that your program encountered this cycle:  
   **A potential challenge could be the turnover in Senate representatives, which likely leaves a lack of historical guidance.**

2. How does your trend data impact your decision making process for your program?  
   **Historical data is always helpful in the decision making process.**

3. Were there any changes to student success and retention for face-to-face, as well as online/distance courses?  
   **N/A**

4. Were there any changes to student demographics (age, gender, or ethnicity) for the past cycle?  
   **N/A**

The Academic Senate, representing both full and adjunct faculty, serves as a vital governance organization. The organization, consisting of five campus wide elected officers and twenty-six department elected representatives, assist in the distribution of information to constituency groups and services as the
decisions making body for the faculty voice in both college and district decision making. Through resolution, motions and actions, and district committees, faculty member’s voices have played a spirited role in the direction our college and district has taken to improve the educational processes promoting great student success. In the Academic Year 2016-17, the Guided Pathways initiatives illustrate the collaborative successes of institutional decision making of which the Academic Senate is proud to belong; the initiative received statewide recognition. The Academic Senate is a vibrant and central body for the success and growth of our institution.
