I am requesting the following:

<p>We have asked for the last 4 years to have the big, black computer cart removed from LA 115 and replaced with equipment the same as other classrooms (projector that is ceiling mounted and computer on a side ledge) in our area and department. The cart makes the classroom cramped and is a visual impediment, which is unacceptable in a classroom where the mode of instruction is visual-spatial. We are now begging that this eyesore be removed as soon as possible.</p>
