

ISIT/FACILITIES/OTHER EQUIPMENT REQUEST 2018:

Program or Service Unit:	Art- Sculpture 3D Design FA23
Submitter:	Kristopher Stallworth Darrin Ekern
Extension:	4206
E-mail:	kstallwo@bakersfieldcollege.edu

1. Replace all hanging electrical outlets. The current outlets are very old. Some are in such bad shape that copper is showing and they have been shut off at the breaker. This is a safety issue for students and should be addressed immediately.
2. All Lighting ballasts and light bulbs should be checked and replaced as needed. Many are bad and flicker during classes. This is disruptive to the learning environment for students.
3. Replace all water soaked ceiling panels. Many throughout the room have water damage and should be replaced.
4. We need an exhaust fan and shroud for above the sand blasting area.

5. Remodel the storage area in FA23 where the Custodians keep their supplies. This space could be made much more functional for storage so we have a space to store the new printer as well as other supplies.

6. Drill Press

The current model is very old. It would be good to get one with modern safety features. This would cost around \$600.

7. Table Saw

The current table saw is very old and dangerous. The cord to plug it in has exposed wires. There are also no safety features as the machine is very old. A new saw would run around \$1200. To \$1500.

8. Sand Blaster

The current sandblaster does work. A new one would cost around \$1000.

9. Ban Saw

The current model is very old. It would be good to have one with modern safety features.
