If you have multiple requests, please submit multiple forms.

Please share as many details as possible such as room location(s), type of facilities request, remodel or construction request, safety concern, or furniture request. If you have a cost estimate, that would be helpful, we will contact you for more details.

I am requesting the following facilities need:

**Remodel printer storage room between FA9 and FA10**

Comments: The storage room between FA9 and FA10 was designed for use by drawing and 2D design classes. We now use this space for digital photography and graphic design courses, and the room houses laser and inkjet printers, as well as consumables for these devices. The room is also used for cutting and mounting projects, but the counters are not ideal for this use. A total rethinking of this space needs to be done, taking in account the current uses of the space.

**Clean, Paint Storage Area in the back of FA8**

**Convert back of FA8 into a functional studio space**

As part of the FA8 remodel a space was created at the back of the room that would be perfect for a lighting studio and sound stage. This could be used by Media Arts, Photography and Graphic Design.

Include:

Wall mounted backgrounds

Infinity wall
