

**ISIT/FACILITIES/OTHER EQUIPMENT REQUEST 2018:**

Program or Service Unit: Human Biology - AS

Submitter: Joe Saldivar

Extension: X4099

E-mail: jsaldiva@bakersfieldcollege.edu

Funding Source or needs funding; Needs Funding

Please explain: The costs of anatomical models, biological models and Biotech equipment range from \$300 - \$20,000. The Biology Department will use departmental monies to purchase small replacement models and equipment. The department has been fortunate and honored to have been granted funds from the BC Foundation and the Strong Work Force grant to purchase more expensive models and equipment.

The Biology Department would like to meet the needs students in SW Bakersfield. This would require a fully equipped laboratory of models, microscopes and equipment. Unfortunately, the department budget cannot support the purchase of multiple models and "large ticket items".

**PLEASE NOTE: If you have multiple requests, please submit multiple forms.**

*Please share as many details as possible such as room location(s), type of equipment and/or software requested. If you have a cost estimate, that would be helpful, we will contact you for more details.*

*Please share as many details as possible such as room location(s), type of facilities request, remodel or construction request, safety concern, or furniture request.*

You will have an opportunity to present your request to the ISIT/FACILITIES OR CTE committee.

I am requesting the following:

The Biology Department would like to meet the needs students in SW Bakersfield by offering courses in the Allied Health pathway. This would require a fully equipped laboratory of models, microscopes and equipment. Unfortunately, the department budget cannot support the purchase of multiple models and "large ticket items". Please see the "attachment" for the list of models and equipment. The total cost is \$314,500. The Department would also require a secure location to store the models and equipment when not in use.
