| <p>This request is for Fine Arts 47, 51 and 58:</p> <ul style="list-style-type: none">• New wifi-capable computers <p>Rationale: Our principal classrooms in FA have computers that are 7 years old and are not wifi -capable. These machines are slow by today's standards and do not competently handle the videos used to instruct students.</p> <p>The current machines also require ethernet connectivity for internet and local network functionality. The cables are stapled to the front walls, have come loose several times, and pose a tripping hazard for student presenters and faculty alike. The wifi upgrade to Fine Arts offers the chance to eliminate the hazard and use a secure wifi connection for the classroom computers, but that requires new computers in those classrooms.</p> |
