Over 500 students. That seems like an increase?  
Well done!

All,

I received an email from one of our colleagues at Allan Hancock College. She was interested in our non-credit program (thanks to Jeannie, we are trend setters). I made a chart based on the numbers in Banner that breaks down our enrollment. I thought it was interesting; I thought you might find it interesting, too. You can see that more than a quarter of our students are non-credit in our intermediate and beginning levels.
