I am requesting the following:

We are requesting the replacement of the LCD projectors in rooms INDT 5, INDT 6, and INDT 7a.

The projector in INDT 5 cannot be focused, despite the efforts of Media Services on several different service calls. It is more than a simple issue of manually focusing the projector's lens. Some students have difficulty with viewing the projector due to this mechanical problem.

The projector in INDT 7a is the oldest one of the three labs. It does not have HDMI inputs, and the a replacement bulb will be expensive and difficult to find. The resolution of the projector is much lower than the current units, as well.

The projector in INDT 6, while working OK, was a replacement that Media Services put there (as we recall) to be a temporary or alternative "fix" when the previous projector was stolen.
