*Please share as many details as possible such as room location(s), type of facilities request, remodel or construction request, safety concern, or furniture request.*

You will have an opportunity to present your request to the ISIT/FACILITIES OR CTE committee.

I am requesting the following:

<p>The SE-45 Engineering lab is used heavily for a number of ENGR courses (B47, B45 lab, B36, B37, B17, B19C). This room was repurposed from a mailroom and, thus, has a wide layout, rather than the traditional narrow / stadium seating of a large lecture hall. The two monitors at the front of the room were installed several years ago and provide limited viewing angles and display size. A large projector might solve this issue, but consultation with IT staff has determined that the room has no anchor points on the wall or ceiling to accommodate this. If two larger replacement monitors were installed visibility would be improved greatly for students in the back and far sides of the room.</p>
