I am requesting the follow

<p>Request: New Desks for Classrooms with the chair and desk not attached. Triangle or Trapezoid desks are preferable.</p> <p>Rooms: Humanities 2, 3, 4, 5, 6, 7, 20, 21, 22, 23</p> <p>Justification: The majority of the classrooms used by the English department have outdated desks that are not appropriate for students with disabilities, overweight students, or students with mobility or body size concerns. The one or two desks per classroom that can accommodate such students is woefully insufficient. Aside from disabled students, students who are large simply cannot fit in our old attached desks. This can often cause embarrassment on the part of the students, and it makes students drop classes, reducing retention and success numbers. We are asking for desks with separate seats for all of our classrooms. The bonus of triangle or trapezoid desks add to classroom teaching modalities by allowing more interactive group work based on the shapes of desks when combined.</p> <p>Cost Estimate: Estimated 300 desks/chair total, an estimated \$171 per combo. Total amount: \$51,300.</p> <p>From: https://www.worthingtondirect.com</p>
