TITLE OF INSTRUCTOR POSITION: Nutrition Professor

PLEASE PROVIDE A SUMMARY AND RATIONALE OF FACULTY POSITION REQUEST (You may copy and paste from your COMPREHENSIVE OR ANNUAL PROGRAM REVIEW.)

Provide data that substantiates the proposed positions. Refer to the guidelines listed in the Budget Decision Criteria and College Strategic Goals documents.

The Food & Nutrition Department is requesting a full-time tenure track position beginning Fall 2018.

The nutrition program has one full-time faculty member and there are 15 sections of the same nutrition class offered every semester. Given that 5 sections equates to a full-time load, which leaves 10 sections each semester that have to be covered by adjuncts. The vast majority of these classes are offered during the day; which makes it difficult to recruit adjuncts. Existing adjuncts are not going to be able to continue teaching enough courses during the daytime; which makes it more imperative to have a full-time position.

Each class has 60 students enrolled with a waitlist of 10 per section. Additional sections would easily fill, but another faculty member is needed to teach the additional sections. The nutrition classes have approximately 1,500 students each year.

Additional nutrition classes could be created and offered if another faculty person was on board to help support the program. We have written an **AS-T in Nutrition Science**, thus creating a direct **pathway** for students to obtain a BS Degree in Nutrition Science and become registered dietitians. However, with only one f/t professor coordinating the work of 10 adjuncts, managing the DSS Program, and teaching a full load of classes, there isn't time to teach the additional classes needed for implementing the AS-T degree. Once a new full-time nutrition faculty member is hired, we will be able to execute offering the AS-T in Nutrition Science.
