*Please share as many details as possible such as room location(s), type of equipment and/or software requested. If you have a cost estimate, that would be helpful, we will contact you for more details.*

*Please share as many details as possible such as room location(s), type of facilities request, remodel or construction request, safety concern, or furniture request.*

You will have an opportunity to present your request to the ISIT/FACILITIES OR CTE committee.

I am requesting the following:

Classrooms H-11 through H-15, H-103 and H-51

Request: We request rewiring of lighting in these rooms.

Suggestion: We request modification to the wiring in such a manner that turning off one light switch will turn ALL of the lights off at the front of the classroom, near the white board. The second light switch would control lights in the rear of the room.

Issue: Currently, each switch turns off lights in a staggered fashion. This leaves too much light on the whiteboard, which is now the projection screen for the drop-down projectors. This leaves displays washed out, making student learning harder to attain.

Significance: In order to train students in the historian's craft, as well as in critical thinking, our History courses devote significant time to the analysis of historical documents. Most original sources are written in flowing cursive and on yellow parchment. The current lighting system significantly impedes pedagogy and learning.
