

Please provide the following information that will help the curriculum committee to ensure curricular alignment in all areas. As you review your courses and program(s), keep in mind that curriculum revisions, creation, and deletions should occur during the fall semester to receive an effective date of the following summer.

Curricular Course Review

Reviewing the course compliance list on the Curriculum Committee website will assist you in answering the following questions.

1. Do you have courses that should be revised this fall? YES NO
If yes, list the courses along with the faculty member responsible for the revision.

Courses	Responsible Party

2. Do you have courses that are beyond the 6 year review date? YES NO
If yes, list the courses along with the faculty member responsible for the revision or deletion.

Courses	Responsible Party

3. Do you have courses you need to delete? YES NO
If yes, please complete the deletion in the curriculum management system by the end of October.
4. Specific to *transfer* and *degree applicable* courses, have you made any changes that might affect other programs? YES NO Yes answers will prompt a cross check by the Curriculum Committee.

The number of units for INDR 12 has increased from 2 to 3

Curricular Program Review

1. Please review your program in the catalog, on the web site, and in the program mapper. Verify that your program reflects any recent changes (course numbering, titles, units, etc.)
The catalog needs to be updated to reflect the change noted above. Additionally, the AA degree for Industrial Drawing has been deleted and should be removed from the catalog.
2. Review your program sequencing of courses in the CATALOG. Do you need to make any changes or do you need to create a sequence? YES NO
If yes, please use the sequencing template on the curriculum page (forms section). Submit changes to the curriculum chairs –NOT in eLumen.
3. Review your program sequencing in the Program Mapper.
