I am requesting the following:

<p>The Rapsodo Pitching Monitor which is the best of the cheap pitch tracking monitor systems. It involves a high speed camera which allows us to track every pitch thrown by our pitchers in practice and games and will be a great teaching tool for our pitchers. Rapsodo is a company who developed the technology and it is used by multiple community college, 4 year, and minor league teams. I have seen the system personally, and it would be a great addition to our program.</p>
