Student athlete-musicians in the marching arts programs experience injuries much like student-athletes in other sports, and an ACT or equivalent health care provider is needed to prevent and treat these injuries.

Does this need address grant partnership commitments and/or critical community needs?)

Directly related to the Wellness value and the Strategic Directions of Student Learning and Student Success and Completion, an Athletic Trainer is needed to support the Spring/Summer competitive music "teams" BC Drumline (MUSC B18A) and Golden Empire Drum and Bugle Corps (MUSC B28). Each of these groups trains and performs rigorously physical routines, often in high heat or other potentially hazardous conditions. An ACT is necessary to safeguard the health of the students as well as to maximize the success of the competitors, who regularly compete in regional and national events.

Impact on College/District if position is not filled: (Include how having the position or not having the position impacts FTES, services to students.)

Failure to fill this position may expose the college and district to liability, but more importantly it would be a proactive move to reduce injuries to students.
