I am requesting the following:

HEALTH CONCERN: New pipes (or at least have them cleaned)/water filter, bottled water for the Humanities building. One of our faculty members is often the first one in the building after a weekend. When she turns on the faucet in the Humanities lounge to get water for coffee, it is brown and tastes of metal and rust. It takes several minutes to clear the pipes to the point it clears enough to make coffee (but this is only what she sees).
