ISIT/FACILITIES/OTHER EQUIPMENT REQUEST 2018:

Program or Service Unit: | Philosophy

Submitter: | Michael McNellis

Extension: | X4596

E-mail: | mmcnelli@bakersfieldcollege.edu

Funding Source or needs funding. Please explain | Needs Funding.

**PLEASE NOTE: If
you have multiple requests, please submit multiple forms.**

Please share as many details as possible such as room location(s), type of equipment and/or software requested. If you have a cost estimate, that would be helpful, we will contact you for more details.

Please share as many details as possible such as room location(s), type of facilities request, remodel or construction request, safety concern, or furniture request.

You will have an opportunity to present your request to the ISIT/FACILITIES OR CTE committee.

Ipad pros w/ Apple Pencil   - Cost $7700. ($100+ for pencil and $1000 for ipad pro x 7)

Rationale #1: Enhance student success in the classroom: Now that we have projectors in our main rooms, we would like to bring our classroom to the 21st century by integrating Ipads into our pedagogy. (Note: Our request for powerpoint remotes would not be fulfilled if this request would be granted).

We would love to integrate movies clips, videos, images, and be able to highlight lecture main points in the classroom. We cannot do this with just a computer and projector – we need a third device that creates an opportunity for interaction with the projector.

If we can connect the ipads to the proctor we can easily move in and out of programs showing images, videos etc. And we could use a lecture note program and record our lectures and submit online for students to review. There are many way to do this and several us in the department would love to provide training on this kind of integration.

Especially with Google Sketch you can recreate historical scenes live in google maps. I as chair want to bring my department into this world – to provide opportunities for students to enter the Greek work of 5th century Plato or to do peripatetics with Aristotle in the garden while discussing arête. We cannot do this without an ipad integration feature.

Rationale #2: Department meetings, meeting in general, would be so much more effective if we were provided a way to quickly share files and work on documents interactively.

Rationale #3: Obviously, to integrate lectures we need to be able to write. The newer version of apple pencil with the ipad pros is insanely perfect. No lag. No wasted time erasing. What you write instantly is projected on the ipad.
