I am requesting the following:

<p>Type of Equipment: Cart with 30 laptop computers containing SPSS.</p> <p>PSYC B5 (Elementary Statistics for the Behavioral and Social Sciences) is an important core course and GE course for many of BC's academic programs and also taught by sociology faculty. As BC continues to increase its student enrollments, there is increased demand for PSYC B5. However, the program is restricted in the number of sections it is able to offer because it incorporates a statistical software program in its curriculum and is therefore bound to operate in computer classrooms, which are limited in availability at BC. A mobile cart with laptop computers containing SPSS offers a solution to this infrastructure dilemma and will support the college's mission in supporting student success.</p>
