I am requesting the following:

We need to have additional room for building and storing sets in order to effectively produce shows and save money long-term as we reuse scene design pieces. We would recommend relocating the downstairs practice rooms that are currently in the work area of the theater so that we can repurpose that space for the workroom.

We would also like to find some sort of space to store our costumes, whether it be a C-train somewhere on campus or other storage facilities. Currently they are being stored in the black box theater, which limits the classroom space and the ability to use the space for theatrical productions. Ideally, we need approximately 1000 square feet, with the ability to hang costumes up to ten feet high.
