I am requesting the following:

<p>The security gates at the top of the stairs from the Computer Commons into the library, and the security gates between the library lobby and the Circulation Desk are now 22 years old. The gates were installed when the library was built. These gates detect the magnetic strip in books that have not been checked out and sound an alarm to deter theft of library materials.</p> <p>The gates have lately been malfunctioning, requiring regular manual resets. Last summer one of the gates began to spark and smoke, which required a service call. Service calls for the gates routinely cost around \$1,200. The vendor (3M/Bibliotheca) has now contacted us to let us know that they may no longer be able to supply replacement parts for the gates due to their age. The quote from Bibliotheca to replace all the gates (with the exception of the gates at the bottom of the stairs in the Computer Commons, was \$48,000.</p>
