*Please share as many details as possible such as room location(s), type of facilities request, remodel or construction request, safety concern, or furniture request.*

Baseball & softball facility needs. Rank #2, items below are listed in rank order and work orders identified.

**#1 Replace netting on backstops – funding needed**

**#2 Replace scoreboards with LED lights – funding needed**

**#3 Extension of chain link fence at the home plate end of each bullpen – funding needed**

**#4 Addition of specialized infield dirt – funding needed**

1. Painting of dugouts and backstops (work order)
2. Annual weed control program (work order)
3. Annual pest control program (work order)
4. Annual renovation and over seeding of the grass areas with winter rye. (work order submitted)
5. Outfield lights to be checked and replaced if not working. (Work order to be submitted)

Netting on the backstops are 10 years old and in the heat/sun in Bakersfield they are in need of being replaced for safety of spectators.

Scoreboards (3) on both fields are very difficult to see on a sunny day. These are at least 20 years old.

Fencing is too short at the end of each bullpen, balls come over and put fans at risk.

The infield dirt is a specialized surface and needs to be maintained with specialized material annually.

You will have an opportunity to present your request to the ISIT/FACILITIES OR CTE committee.
