

Staff Meeting
9/21/2017

In attendance: Sue Vaughn, Kalina Hill, Juan Estrada, Shelia Fuller and Lovey Chahal.

Today we discussed our Administrative Unit Outcomes. For the last few years, we have been utilizing Irregularity Report (IR) forms to identify problems with DSPS accommodations testing. We are satisfied with our results. Thus, we have implemented the IR to our standard testing procedures, and will no longer include this outcome to our incoming AUO reports.

This year 2017-2018, we will continue our work on placement test preparation data with intent to raise course placement levels. We will be tracking how much preparation time students utilized and collect data concerning how they prepared and what type of materials they used for preparation.
