

Office Meeting

February 9, 2018

IN ATTENDANCE: Juan Estrada, Kalina Hill, Shelia Fuller and Janice Smith.

DSPS

Southwest Bakersfield College will be starting classes February 10, 2018. We will be providing DSPS services to the site soon. Nursing students not being able to arrive for testing from the Weill to Bakersfield College to receive all time allocated for testing are to be tested on Saturdays for now. Janice supervised the first test and Juan will supervise this Saturday.

Delano

Outreach will be having their mini "It's Possible" on Saturday. Only the first 3-steps of Matriculation will be offered. Lovey and Janice will provide the placement support in Delano, and have received new log-ins for the event. Juan will be on the main campus until 11:30 If you need assistance.

High Schools

High school testing will be wrapping up around March 3, 2018. We will coordinate with Grace as to how we complete those that trickle in after we finish attending all high schools. Janice mentioned that Wasco Union High School was very organized; the counselors were great and their students were prepared and ready to test. We all agreed it has been a great testing season.

Measure J

The Welcome Center and the Counseling and Supportive Services Building will be started in 2020 or 2021. The Welcome Center will be a renovation and the building is to be expanded toward the courtyard. We are expected to have about 80 to 100 computers for Testing and Placement Center.
