Q7

If you think YOU would benefit from new technology, please explain. (Please be specific: what technology do you think should be obtained? How would that technology help you in your job? How is it different from technology currently in use?)

Answered: 52 Skipped: 85

I simulcast all of my lab demonstrations and lecture for hybrid classes. To do this effectively, I need audio and video equipment that does not exist in the labs. So, I bring my own equipment to use.

3/30/2022 12:35 PM

My desktop computer in my office is quite outdated and I have difficulty sometimes in getting sound to work when evaluating videos or student assignments that contain sound.

3/26/2022 2:10 PM

I would love to have a second monitor in For 101 so that I can have my slides up on one screen and other info on another one.

3/24/2022 11:43 AM

I am satisfied with the current level of technological integration.

Answered: 40 Skipped: 97

Good quality audio / video equipment in the labs would allow us to provide a better experience for remote learners.

3/30/2022 12:35 PM

Some sort of network ability to install and fix software seems like it should save a ton of time for IT staff not to have to physically install or fix software on campus. Remote access to desktop and laptop computers is readily made, available, and used by other colleges.

3/26/2022 2:10 PM

The second monitor in any teaching room would benefit anyone teaching there. csh

3/24/2022 11:43 AM

Some science labs could benefit from technologies which allow for digital recording of data as that is the modern standard for data collection.

Q9

If you have additional feedback about the technology used at Bakersfield College that needs further explanation, please explain in the provided space.

Answered: 22 Skipped: 115

N/A

3/22/2022 3:31 PM

Gratitude to the Technology Support Services team for their tireless and timely responses in both troubleshooting and many times subtle Professional Development.

3/22/2022 1:29 PM

The equipment/support I request is negligible, and would return a huge benefit to students. I find it ridiculous that I haven't received them.
