Dear Renegades,

My name is Alexandria Lopez and I'm a second semester student at Bakersfield College. I am absolutely enthusiastic to be considered for the position of Director of Public Relations. Fostering relationships with people through social media is something I'm adept to as a student. I am eager to bring my experience with navigating social media to BC and utilize it to promote the ongoings of our campus. In the past I've used social media to promote plays I was performing in by highlighting rehearsals, set building, and costume design. I've also used social media to engage with new people and network to further professional goals. Bakersfield College's student government needs to be filled with people keen to aid in advocating on behalf of the student body. If elected for the position of Director of Public Relations, I plan to dedicate my time to uplifting the voices of our student body.

Later Skaters,

Alexandria.
