REVIEW AND APPROVAL OF THE MINUTES for 3-22-19:

Postponed, no quorum.

REPORTS:

- Co-Chairs' – Brent met with Robyn from eLumen. Collective vs individual assessment default options: Can they be flipped? When faculty are looking at courses, can it be by CRN not section #? Asked if SLO mapping can be embedded in the course revision area? Robyn mentioned it has come up before at other colleges. Brent asked about the Canvas/eLumen integration and that it was cumbersome for faculty to implement last year. eLumen is working on it and some features have been updated. There will be Canvas and eLumen training once the kinks are worked out and new tutorials are made. Brent handed out Certificates of Appreciation to members serving on the Assessment Committee this year.
- Update from Jana on SLO-PLO/SLO-ILO/SLO-GELO mapping-SLO/PLO Communication and History still needs some mapping, but there are some technical issues to be resolved. SLO/ILO Welding only left. Dana wants a refresher on SLO/GELO. Pam started hers last night. Currently have about 30% done for SLO-GELO mappings all in all.
- Roundtable-Denise Mitchell-English B1A-Denise's presentation posted to the web. SLO#4- was reviewed. She used a class from last semester. She has research steps the student starts with. All steps are required. 38 students that finished out of 3 classes. 13% exceeds and 34% met expectations. She was not happy with results. She attributes some of it to AB705. Fewer than 5 students attended the tutoring lab. 53% fail rate was not surprising. 38% retention was not a surprise. She has never had this poor a result with the same SLO. Question was asked about high school and if there are courses being tough, the answer is yes, through Dual Enrollment.
