

SLO Performance - By Department, Course, CSLO

Program: Health Information Technology

Date: 06/18/2018

Terms: Summer 2018, Spring 2018, Fall 2017

HEITB10: Introduction to Health Information Technology: Hospital Settings

1. Upon completion of the course, the student will be able to apply health data and clinical documentation principles, standards and guidelines to ensure the quality of the health record in the acute-care hospital setting.

	N/A		Exceeds expectations		Meets expectations		Does not meet expectations		Total	
Summer 2018	0	0.00%	0	0.00%	0	0.00%	0	0.00%	0	0.00%

HEITB12: Basic Pharmacology

1 Upon completion the student will be able to: Describe theories of drug action and principles of pharmacodynamics and pharmacokinetics.

CSLO not included in any Assessment Rubric

2 Upon completion the student will be able to: Define pharmacological terminology including abbreviations and units of measure for drug dosages

CSLO not included in any Assessment Rubric

3 Upon completion the student will be able to: Demonstrate the ability to identify drug categories and list common drugs within categories.

CSLO not included in any Assessment Rubric

4 Upon completion the student will be able to: Identify dosages, routes of administration and therapeutic drug action.

CSLO not included in any Assessment Rubric

5 Upon completion the student will be able to: Identify drugs used to treat common diseases/conditions.

CSLO not included in any Assessment Rubric

6 Upon completion the student will be able to: Use knowledge of pharmacodynamics to analyze documentation from a health record.

CSLO not included in any Assessment Rubric
