

# SLO Performance - By Department, Course, CSLO

Program: Manufacturing Technology

Date: 06/18/2018

Terms: Summer 2018, Spring 2018, Fall 2017

## MFGTB1AB: Machine Tool Processes

**Upon completion of the course, the student will be able to set up a lathe for safe operation.**

	N/A		Exceeds expectations		Meets expectations		Does not meet expectations		Total	
Summer 2018	0	0.00%	0	0.00%	0	0.00%	0	0.00%	0	0.00%
Spring 2018	0	0.00%	0	0.00%	0	0.00%	0	0.00%	0	0.00%
Fall 2017	0	0.00%	0	0.00%	0	0.00%	0	0.00%	0	0.00%
Totals	0	0.00%	0	0.00%	0	0.00%	0	0.00%	0	0.00%

**Upon completion the student will be able to: Measure and assess if part sizes are within specified dimensional tolerances by using the part drawing and a micrometer caliper.**

	N/A		Exceeds expectations		Meets expectations		Does not meet expectations		Total	
Summer 2018	0	0.00%	0	0.00%	0	0.00%	0	0.00%	0	0.00%
Spring 2018	0	0.00%	0	0.00%	0	0.00%	0	0.00%	0	0.00%
Fall 2017	0	0.00%	0	0.00%	0	0.00%	0	0.00%	0	0.00%
Totals	0	0.00%	0	0.00%	0	0.00%	0	0.00%	0	0.00%

**Upon completion the student will be able to: Calculate spindle speeds in revolutions per minute (RPM) based on workpiece material, cutting tool material, and machining operation to be performed.**

	N/A		Exceeds expectations		Meets expectations		Does not meet expectations		Total	
Summer 2018	0	0.00%	0	0.00%	0	0.00%	0	0.00%	0	0.00%
Spring 2018	0	0.00%	0	0.00%	0	0.00%	0	0.00%	0	0.00%
Fall 2017	0	0.00%	0	0.00%	0	0.00%	0	0.00%	0	0.00%
Totals	0	0.00%	0	0.00%	0	0.00%	0	0.00%	0	0.00%

**Upon completion the student will be able to: Calculate thread specification based on an industry-standard call-out listed on a drawing.**

	N/A		Exceeds expectations		Meets expectations		Does not meet expectations		Total

**MFGTB51: Advanced Metal Fabrication and Layout Skills**

**1. Upon successful completion of the course, the student will be able to: Recognize, analyze, and apply the standard of safety rules and practices given in this course pertaining to sheet metal fabrication equipment, work habits, and industrial environments.**

CSLO not included in any Assessment Rubric

**2. Upon successful completion of the course, the student will be able to: Identify and distinguish between the types, gauges, and properties of the common sheet metal materials.**

CSLO not included in any Assessment Rubric

**3. Upon successful completion of the course, the student will be able to: Demonstrate the ability to layout and fabricate a simple flat pattern sheet metal project.**

CSLO not included in any Assessment Rubric

**MFGTB54: Power Metalworking Operations**

**1. Upon successful completion of the course, the student will be able to recognize, analyze, and apply the safety rules and practices taught in this course pertaining to sheet metal fabrication equipment, work habits, and industrial environment.**

CSLO not included in any Assessment Rubric

**2. Upon successful completion of the course, the student will be able to identify the major parts and tooling for the press brake, the roll-former, the tube bender, turret punch, rotary machine, pipe notcher, welders, and the ironworker.**

CSLO not included in any Assessment Rubric

**3. Upon successful completion of the course, the student will be able to design and fabricate an advanced sheet metal project involving 4 multiple major pieces of power machinery equipment introduced in this course.**

CSLO not included in any Assessment Rubric

**MFGTB55: Intermediate Machine Tool Processes**

**1. Upon successful completion of the course, the student will identify, select and apply high-speed tool bits to advanced machining operations.**

CSLO not included in any Assessment Rubric

**2. Upon successful completion of the course, the student will be able to design advanced setups and operation of engine lathes for turning/facing and threading operations.**

CSLO not included in any Assessment Rubric

**3. Upon successful completion of the course, the student will be able to design advanced setups and operation of vertical milling machines to drill holes, index, bore holes to specified diameter and depth, mill surfaces/ edges, and use indicators to reference work.**

CSLO not included in any Assessment Rubric

**4. Upon successful completion of the course, the student will be able to use dividing heads/rotary tables, their accessories and additional components to perform advanced milling operations.**

CSLO not included in any Assessment Rubric

**5. Upon successful completion of the course, the student will be able to use of advance work holding devices and accessories to perform advance turning and facing operations.**

CSLO not included in any Assessment Rubric

**MFGTB56: CNC Metal Fabrication Systems**

**1. Upon successful completion of the course, the student will be able to recognize, analyze, and apply the safety rules and practices taught in this course pertaining to sheet metal fabrication equipment, work habits, and an industrial environment**

CSLO not included in any Assessment Rubric

**2. Upon successful completion of the course, the student will be able to analyze and apply software to design a sheet metal part and export it to the CNC plasma table in the proper vector format.**

CSLO not included in any Assessment Rubric

**3. Upon successful completion of the course, the student will be able to design and fabricate an advanced sheet metal project involving two different pieces of CNC fabrication equipment.**

CSLO not included in any Assessment Rubric
