

SLO Performance Report

Program: Child Development

Date: 11-02-2019

Terms: Spring 2019, Fall 2018, Summer 2018

CHDVB42: Child, Family and Community

Upon completion the student will be able to: Student Learning Outcomes #1 Analyze theories of socialization that address the interrelationship of child, family and community. Objectives: Demonstrate knowledge about the child as developing within a system and influenced by numerous factors of socialization. Discuss theories about the role of family, school and community in the process of socialization.

	N/A		Exceeds expectations		Meets expectations		Does not meet expectations		Total	
Spring 2019	0	0.00%	0	0.00%	0	0.00%	0	0.00%	0	0.00%

CHDVB32: Teaching in a Diverse Society

Upon completion the student will be able to: Student Learning Outcome #1 Critique theories and review the multiple impacts on young children’s social identity. Objectives: Understand the nature and processes of systemic and internalized privilege and oppression and their impacts on children’s identity development and learning. Explore the unique and overlapping issues in racism, sexism, classism, heterosexism, ableism, and ethnocentrism as they relate to children and to early childhood settings. Review professional ethics and responsibilities and legal implications of bias, prejudice and/or exclusion.

CHDVB36: Developmentally Appropriate Curriculum

1. Upon completion of the course the student will be able to: Investigate and apply developmentally appropriate principles and teaching strategies to positively influence all young children's development and acquisition of knowledge and skills. Objectives: Explain verbally and in writing, the sequence of play as central to development and learning for young children. Define, explain and apply constructivist theory in curriculum planning for young children. Apply understanding of children’s learning and development to design and evaluate age appropriate foundational curriculum in areas such as: language & literacy; physical/motor mastery; creativity and the arts; mathematics and science.

2. Upon completion of the course the student will be able to: Evaluate the teachers’ role in providing best and promising practices in early childhood programs. Objectives: Evaluate the role of the teacher in supporting development Identify key ways in which the environment functions as an essential component of curriculum. Assess and evaluate curriculum plans for affirmation and respect for cultural, linguistic, ethnic, ability, economic class and gender diversity. Define how curriculum plans can be modified for inclusion of children with special needs. Demonstrate through several specific lesson plans the value and sequence of a child’s ability to construct and represent her/his world through symbols. Evaluate teacher behaviors for best practices reflecting current research and the impact it has on children’s learning and development.

3. Upon completion of the course the student will be able to: Compare and contrast play-based curriculum that supports children’s cognitive, language, creative, physical and social/emotional development. Objectives: Demonstrate through written curriculum plans, familiarity with appropriate materials, equipment, and teaching approaches that support optimum learning and development for all young children. Demonstrate and explain in curriculum plans the progression from “simple to complex” and “concrete to abstract” and explain how these concepts are essential for all children’s learning. Identify the key roles of the teacher in the cycle of observation, assessment, planning, set-up, instruction, and elaboration of curriculum. Identify various ways of engaging with children’s families in curriculum planning and documenting of children’s involvement and learning.

4. Upon completion of the course the student will be able to: Design and implement curriculum based on observation and assessment to support play and learning using developmental, inclusive, and anti-bias principles in collaboration with families to support all children. Objectives: Define major areas of content learning for young children and discuss activities, materials, and approaches which most effectively support that learning in an early childhood classroom accessible to all children. Design curriculum plans and activities to include support of home language as well as development of English as a second language. Using current professional standards observe and document children at play and propose appropriate curriculum and possibilities for expanding children’s learning in a variety of curriculum content areas. Discuss the role of curriculum in supporting socialization, self-regulation and self-help skills.
