

## Animal Science Assessment Plan

### ANSC B1 intro to Animal Science Courses being assess for Spring 2016

# of students – 62

% of SLO 1-3 Met- 94.2% Note: The other half of the SLO's will be assess on the final. The tool used to measure the SLO's is an Exam. The plan is to continue to use the same plan in place.

### ANSC B11 Livestock Evaluation

# of students -36

% of SLO 1-4 Met- 78.5% Note: The other half of the SLO's will be assess on the final. The tool used to measure the SLO's is an Exam. The plan is to be changed by using a pre-test, then a post exam. I believe this will help increase the %.

### ANSC B6 Applied Animal Nutrition

# of students- 25

% of SLO 1-4 Met- 81.5% Note: The other half of the SLO's will be assess on the final. The tool used to measure the SLO's is an Exam. The plan is to be changed by using a pre-test, then a post exam. I believe this will help increase the %.

For the most part, students are meeting the outcomes in these courses that provide essential knowledge and skills to be successful in the Animal Science industry. I have discovered that the lack of complete

passage rate is the attendance of classes. Lack of scientific background prior to taking the course does cause some lack of understanding to be successful on various learning outcomes. I believe by adjusting the plan by adding a pre-test will help close this gap and increase the percentage.

#### ANSC Courses that will be assessed in Fall of 2017

ANSC B2, ANSC B7, ANSC B4, ANSC B10, ANSC B92, ANSC B84, ANSC B88

#### ANSC Course Taught by Adjuncts

ANSC B96, B22, B83, B86, B90, B94, B85 These courses will be assessed in the Spring of 2017. The report will be issued to the Dean of Instruction by May 12<sup>th</sup>.
