A. BSI Transformation Grant Summary (Stephen Waller)

BSI: BSI Innovation Grants Goal Summary March 7, 2016
Steven Waller, Dean of Instruction presented an overview of the BSI Innovation Grants Goal Summary.
As Bakersfield College is implementing a guided pathways approach to ensuring the most students can enter and graduate with an Associate's degree within two years, we are committed to moving all incoming students into college-level math and English within their first year. This aligns with our pillars of a guided pathway approach:
- Moving students to college-level work as soon as possible.
- Supporting students with completion coaching communities.
- Embedding advising to keep students on their program pathway.

General Goals
(1) Placement
Get more students into gateway English and math courses by
a. Increasing the number of students placed using multiple measures, such as high school cumulative junior-year GPA. (Grant RFA innovation 1, required HS partnership, and required scaling)
b. Improving placement and summer bridge options for adult students supported by the Adult Education Block Grant (AEBG). (Grant RFA required AEBG partnership)

(2) Mandatory co-requisite remediation
   Get a **higher** share of students to be successful when in basic skills and gateway math and English courses, by
   a. Increasing co-requisite content remediation using mandatory academic success support in supplemental instruction/study halls. (Grant RFA innovation 2)

(3) Embedded student support and targeted basic skills scheduling -“on-ramping”
   Get students to complete basic skills and gateway math and English courses faster by
   a. Using completion coaching communities for timely embedded advising appropriate for their programs of study grouped into meta-majors. (Grant RFA innovations 3 and 5).
   b. Ensuring basic skills courses (including accelerated courses) are effectively scheduled without conflicts to allow students to “on-ramp” rapidly to collegiate-level meta-major programs. (Grant RFA innovation 3)

**Work Plan and Targets**

(1) Placement using multiple measures for incoming students from Kern County high schools. Determine the best placement into math and English courses using Accuplacer, high school junior/senior cumulative GPAs, and high school math and English course grades.
   a. 2014-15 AY = 500 students, target reached
   b. 2015-16 AY = 1600 students, target reached
   c. Grant Year 1, 2016-17 = 4000 incoming HS students
   d. Grant Year 2, 2017-18 = all 6000 incoming HS students
   e. Grant Year 3, 2018-19 = sustain effort for all incoming HS students

(2) Mandatory co-requisite remediation in gateway English and math courses.
   Co-requisite remediation will be accomplished with at study hall model with set supplemental instruction sessions running from 7 am to 7 pm, including hours on Friday afternoon and Saturdays. Student workers and expert professionals, who may also be faculty working with special compensations, will staff conduct sessions and answer student’s academic questions. These sessions will be open for all students in the supported course, regardless of section.
   a. Grant Year 1, 2016-17
      Provide SI/study hall support for all sections of ACDV B72/B50.
   b. Grant Year 2, 2017-18
      Expand SI/study hall support to include ENGL B50/B53/B60 and MATH B70/B65/B60.

Assessment report to ACCJC – At this point we have roughly 18% of our assessments for last year 2014-2015 being reported. Before the complete failure of CurricUNET – we were reporting 100% (Emperor and Clothes). We have asked that we use the excel worksheet found on the Assessment Committee website to report last year assessments. When you finish these – please send them to your chair and dean. To make sure that it is put onto the website it would be a good idea to send a copy along to Mindy Wilmot, Faith Bradham, David Neville, Kate Pluta and Liz Rozell. Do not use CurricUNET.

All of the assessments for the campus are located on the Assessment Committee website: https://committees.kccd.edu/bc/committee/assessment at the bottom left of the page:
Mapping SLOs/PLOs/ILOs.

If your department is not found here, or if your assessment is not found when you click on your area – we will not be able to report your assessments to ACCJC and they will cannot be seen by the public.

There will be an assessment workshop this Friday 3/11 from 10:30 – 12 in room B11. Please come with your data and committee members will be available to help.

  EODAC Report 3/9/16
  By Bryan Hirayama

  We held our first meeting in the later part of February where we had a full agenda. Zav dropped by where he was asked a handful of important and information-seeking questions regarding the non-governance committee he is forming which includes EODAC as a part of the membership (Student Success and Equity Committee). His visit helped the EODAC committee gain perspective on the scope of the new committee, as well as, voice some of their concerns.

  Vikki and Bryan recently attended a regional training on Equal Employment Opportunity and Equity in Faculty Hiring. Many of the concepts and practices discussed there will be shared at the upcoming district committee because some of procedures are problematic. This Friday both Vikki and Bryan will be attending the second meeting of the year for the Equal Employment Opportunity and Staff Diversity Committee at the District.

  EODAC helped to launch a climate survey from the District. Vikki along with Sokha worked hard to make this happen with the guidance and support from the committee as a whole.

  Lastly, Bryan will be attending the second annual ASCCC Academic Academy which focuses on equity in the middle of this month (3/18-19). Many of the issues EODAC and the Office of Equity and Inclusion are concerned with will be the central focus of panel and conference conversation.

  Hirayama announced that the District (on behalf of EODAC) sent out a **Cultural Climate Survey** today.

ISIT (Marquez) – Report submitted as written
https://committees.kccd.edu/bc/committee/isit
Vacancies: Allied Health/Art/Behavioral Sciences/Counseling/Health & PE/Philosophy/physical Science
Since my last report, the ISIT Committee has met on March 7, 2016.

The following items were discussed at the March 7 ISIT meeting:

- **Canvas Update** – Although Bill Moseley could not attend the meeting, he provided the following statement regarding the college’s move to Canvas:
  "Matt, Tracy, and I are in the process of developing a training strategy to facilitate the transition to Canvas that will include multiple ways for faculty to get up to speed. It will include an online course, several 2-hour seminars, as well as a video library of short, task-specific how-to videos, and a cheat sheet for more advanced faculty. The seminars will be scheduled to begin in April, and most of the other materials will roll out that time as well. The online course should be available for late April or early May. We don’t know any specifics yet on the availability of course shells, but faculty who are anxious to start building their courses can use the “test” shells that we currently have, and we can transfer their courses later on."

- Adding to Bill’s report, Matt Jones provided the following information:
  - **Face-to-face Training Tentative Schedule**
    - Friday 4/8, 9-11am
    - Tuesday 4/20, 3-5pm
    - Friday 4/29, 9-11am
  - **Online Training TBD**

- **There will be an Online Faculty COP meeting to be held Friday, 3/11, 9-11am, in L148.**
  This session is not only for faculty who teach online, but also for anyone interested in online pedagogy.

- **Another Online Faculty COP is scheduled for 4/29, 9-11am, in L148.**

- **Office 2016 rollout:** This will occur during the fall semester primarily for the labs and the faculty who are teaching computer studies classes. Rollout for the rest of the campus will occur the following spring and summer.

- **Program Review Technology Form:** We had some discussion about changes to the online form used for technology requests as part of Program Review. Although there are no major changes, changes in wording will be made for clarity. Committee members were asked to review the form and provide any department feedback to Kristin Rabe.

- **ISIT Technology Requests Prioritization:** The committee voted to accept the current prioritization of technology requests. This document is posted on the ISIT committee website for your review.

- **Strategic Directions Form:** Richard Marquez and Todd Coston shared the Strategic Directions Form and the BC Scorecard with committee members. The form is being updated for submission to AIQ in the next few weeks. Committee members were asked
to review the committee goals and ensure that any documents that have been created and could be used for evidence of our work are forwarded to Todd for inclusion on the ISIT committee website.

The next ISIT meeting is scheduled for Monday, April 4, 2016 in Levinson 40.
