- Denise Mitchell, English faculty is collapsed in class today from an ear infection.

Opportunity to Address the Academic Senate
a. Security Hardware Update (Potter)
Bill Potter, Director of Maintenance & Operations shared an update on the Security Hardware Project.
- District-wide project that will change the way we access our classrooms and offices, which will provide a more secure environment.
- One phase involves any door that is out of ADA compliance will be updated to either a lighter door or an automatic door.
- Another phase involves the key & hardware side, which all exterior hardware on the doors will now have a swipe card system instead of standard key entry.
• This is an electronic system and all doors will be unlocked and locked by a computer. Times can be set for specific situations and buildings. Doors can be manually locked from the inside.
• Door stoppers will no longer be allowed. A notification will be sent to DPS when doors are propped open, for example- a back pack blocking a door.
• There will be a code to lock down all doors at one instance- in case of an emergency. If power is lost, there is a back-up system: long term- manual use of master keys.
• There is a new key process that includes a Photo ID that is required. Key access can be deleted when employees are terminated.
• The project cost is $5million, it is 20% complete and the completion date is expected to be Dec. 31st

b. Unit Restriction Proposal (Saldivar)
Jo Saldivar, Biology Department Chair shared a Unit Restriction Proposal. This is a proposal to limit priority registration to a cap of 11, 12, or 13 units in order to stop students from abusing their priority registration to enroll in extra classes that they plan to drop (once they figure out which are the hardest). The proposal uses examples from UC/CSU’s. Things to be reviewed- limit to priority groups, exemptions, incentives, etc.

Priority Enrollment Groups:
1. EOPS
2. Athletes
3. Pres Scholars
4. Veterans
5. BC Promise Students
6. DSPS Students

The Senate will support the Unit Restriction Task Force Committee to be chaired by Joe Saldivar.

Proposal for Unit Restriction During Priority Registration

Issue and Rational for Addressing the Issue – “Shopping for Classes”
Bakersfield College is experiencing a tidal wave of students enrolling in courses. Previous budgetary constraints mandated constraints of “workload reduction”. California Community Colleges (CCC) had to ‘do more with less’ or serve fewer students. The Bakersfield College is currently in a “growth mode”. President Sonya Christian would like to take advantage of monies available to CCCs by increasing FTES targets. Late start classes have been added to the class schedule to help meet the FTES goal. Additionally, enrollment
continues to grow while the statewide trends decline. However, as of the first day of the Fall 2016 semester, 7,288 students were on a waitlist (an increase of almost 14% since last year). This is a missed opportunity to serve and educate students who really want to learn at our amazing College (Dean Mourtzanos).

Fall 2016 semester...

- BC student headcount was 19,925 with 7,288 students on a waitlist.
- Having a seat in a course is extremely coveted and valuable.

I have spoken with students about a strategy they call "shopping". Students will knowingly register for more courses than they plan on completing. Thousands of BC students on waitlists have been disenfranchised by this process. It is difficult to tease out certain data, but Lisa Fitzgerald, Director of Institutional Research and Reporting, ‘conservatively’ estimated that 900 students “shop for classes”. This would be equivalent to an increase of 92.6 FTES (using 3.0 units as an average class).

President Christian has placed the onus on administration, faculty and staff to increase in FTES and “getting students out of BC” by increasing access, retention and success. How can they get “out of BC” if they can’t get in?

Proposed Solution – Unit Restrictions During Early Registration

UCLA Model; http://www.registrar.ucla.edu/soc/enroll.htm

UCLA uses the “two pass” system for course registration. The two-pass system is used for the approximately 29,000 undergraduates at UCLA to ensure that everyone has the opportunity to enroll in required premajor, major, and GE courses and to graduate.

FIRST PASS. During their first pass, students may only enroll up to 10 units. This gives all undergraduates a better chance to obtain at least two courses needed toward graduation. Students who do not enroll during their first pass appointment period must wait until their second pass appointment to enroll.

SECOND PASS. During their second pass, students can add courses up to the maximum units allowed by their College or school. They can enroll from the beginning of the specified appointment day and time through midnight on Friday of the second week of classes, when wait lists are eliminated and Study Lists of enrolled courses become official.

Proposed BC Registration Strategy

Students eligible for, Fall/Spring, priority registration will be allowed to register for up to 11 units (including waitlisted courses) and 5.0 units for summer semesters. These students will be able to register for additional courses during open registration. This procedure will place an incentive on students to prioritize their selection of courses during early registration. President Scholars, BC athlete, EOPS and BC Promise Students will be exempt of this process (eligible to register for 12 or more units).

Possible Opposition/Scenarios
1. “Do any other colleges or universities employ this registration strategy?” Response – The entire UC system and 13/23 CSUs employ an early registration policy.

2. “We are hurting our students by limiting their access to register for courses.” Response – Students are still able to register for more than 11 units, but those courses can be during open registration.

3. “This registration policy will hurt a huge number of students.” Response – Approximately 33% are full-time students (6580 full-time students).

4. “Why set the limit at 11 units?” Response – A large proportion of courses at BC are 3.0 unit courses. This will allow a majority of students to register for three courses or two 5.0 unit classes for STEM students.

5. “Why set the limit at 5 units during the summer?” Response – Students success/retention drops dramatically when they take multiple courses during the summer. Priority registration students will still be able to register for additional courses during open registration.

6. “Why would incoming President Scholars be eligible to register for more than 11 units?” Response – Incoming President Scholars have achieved a GPA of at least 3.5 in high school. This can be used as a recruiting tool to bring in excellent high school students.

7. “Can Banner handle this?” Response – “Yes.” (Sue Vaughn)

In Conclusion

A registration procedure currently used in the University of California system and in the California State University system has been developed to provide greater access to high-demand courses. Students without priority registration are frustrated when they don’t have access to courses. It is even more frustrating when they see students drop a course and leaving an empty seat that could have gone to a student on the waitlist. This registration process will...

- Provide an incentive for students to prioritize course registration
- Provide greater access for students that would not have been able to enroll in a class
- Increase retention rates
- Increase success rates
- Support BC’s and President Christian’s goal increasing FTES, increasing access, retention, success and "getting these students out of BC”.
