Spring 2018 Institutional Set Standards (Hayward)
Craig Hayward introduced the Institutional Set Standards and explained these standards are reviewed each Spring by the college. The standards were developed by a review process of our historical data. Input is solicited from college groups, followed by documentation of corrective measures. The following is a list of standards:

i. Workgroup for Advancement of Regional Baccalaureate Attainment (Garrett)
Description: WARBA is a 4-year pathway mapping progress.
WARBA update:
Last week faculty from BC and CSUB met for our second such meeting to iron out 4-year maps lay out a semester-by-semester pathway to both an Associate’s Degree for Transfer at BC and a four-year degree at CSUB. Our goal is to include these pathways in the next college catalog.

Each pathway is designed to navigate the broadest path possible while still fulfilling all necessary requirements and supporting CSUB’s requests to ease the transition to that institution. Whenever possible, entire categories are listed rather than individual classes. However, in some instances (such as major core requirements) individual classes are individually identified.

In preparing these semester-by-semester pathways, the committee has placed a priority on those degrees that graduate the most students. At this moment, faculty have submitted the following pathways that need only undergo a final review:

- Biology
- Business Admin
- Economics
- Early Childhood Education
- English
- History
- Music
- Philosophy
- Physics
- Psychology
- Sociology
- Studio Arts
- Theater Arts

WARBA is now conducting a final review of these 4-year pathways to ensure conformity in style, appearance and language. We hope to submit the finalized documents to department chairs for a final approval by the close of February in order to meet the catalog submission deadline in early March.

Additionally, WARBA is working with discipline faculty on each of the following degree pathways, (and we hope to have some of them completed for the catalog as well):

- Administration of Justice
- Anthropology
- Communications#
- Computer Science*
- Elementary Education
- Engineering
- Journalism
- Kinesiology
- Political Science

*CSUB’s Computer Science will not declare similarity to BC’s Computer Science degree, however, we have a mutual understanding that the coursework is nearly identical and that our computer science students will enjoy a seamless transfer.

#BC’s Communication ADT continues to face opposition at CSUB and so our students in that major do not yet have a clear path to a baccalaureate degree in communication at CSUB (though they may continue into CSUB’s journalism degree). We continue to work toward a resolution of that problem.
Last, BC is nearing the completion of a search for a Director of Transfers position who will contribute much to this effort.

IX. NEW BUSINESS
a. Margaret Levinson Award Fund (Holmes)
   Description: Levinson endowment allows 5% to be utilized, yet it is only earning at 4%.
   Over the past several years, the Senate has supplemented the account to cover the award costs. A vote will take place to approve the subsidizing of the account in the amount of $300.00.
   This will be a voting item at the next Senate meeting.
