Opportunity to Address the Academic Senate
Duplication Services/Bookstore (Culpepper/Lorigo)
Anthony Culpepper, VP of Finance & Administrative Services, and Lora Lorigo, Budget Analyst & Auxiliary Services, were guests at the Academic Senate meeting to address concerns with Duplication Services and the Bookstore.

Anthony informed the group that the Print Shop and the Graphics Center are interconnected. They have begun looking at the various department needs and are checking into the equipment that is necessary to keep this department running efficiently. They are looking into adding another person to the department as support staff for Bill Parker. In regards to Xanadu and the course packs, they are looking at the opportunity of outsourcing if this makes good business sense. Laura is currently getting pricing and when this information is available, it will be brought to the appropriate committees before any decision is made.

There was a bookstore meeting that took place with Nick Strobels. Some subjects that came up in regards to Xanadu were about clearing the art work and additional quality of the images that are being placed in the course packs. Since initial conversations have begun, please send suggestions on how the services can be improved. Send these suggestions to Nick Strobels and Tom Moran.

Laura addressed some of the confusion that may have come about regarding the operations being under limited staffing. The staffing in the print shop has always been the same. However, the addition of a new 19-hour person will be a new thing. It has been difficult to find a 19-hour person; however, the effort is being made. Laura explained that during the December break everything seemed to bottleneck. Xanadu and the bookstore continued to work during the Spring semester and the Print Shop closed due to Bill’s much needed vacation time. Bill was inundated with course packs to process when he returned. Laura has this on her radar and appreciates everyone’s patience with the process. It was also mentioned that there is only one person working in Graphics since a 19-hour person resigned.

Review and Approval of the Minutes:

Assessment Report 3/10/15
By David Neville

We are looking at doing the CAAP assessment so that we can get disaggregated related to critical thinking of our students. Bryan Hirayama, Karimeh Amin and myself went to the SLO symposium where we networked with other SLO leaders from various colleges. We are in the process of developing a uniform mapping system for assessment for all department for our SLOs to our PLOs to our ILOs and in the future to our GELOs.

We are also looking at sending out a form that we will be using for Assessment Data this year as CurricUNET is not being responsive.
The committee from the 3 colleges are making progress on deciding which outside vendor to use for our course management/assessment program. The district IT is looking at the various suggestions at this point. We had hoped to wrap this up this semester.

Enrollment Management (Staller) –Report submitted as written:

ENNROLLMENT MANAGEMENT COMMITTEE MEETING REPORT by Mark Staller
(EMC Meeting held January 27, 2015)

The Enrollment Management Committee met from 1:30 to 3:00 p.m. on Tuesday, January 27th.

Note: The EMC meeting time has been moved from 2:30 p.m. - 4:00 p.m. to 1:30 p.m. - 3:00 p.m. in order to avoid scheduling conflicts with other committee meetings. The remaining EMC meetings for Spring 2015 Semester are March 3, March 24th, and April 28th.

Discussion Items:

EMC members received a binder of reading material over winter break that included an 8-page enrollment management article by Janet Ward, a 10-page 2012-1016 Porterville College Enrollment Management Plan, a 15-page 2011-2014 Draft Enrollment Management Plan for Orange Coast College, a 50-page white paper from the State Academic Senate (ASCCC) titled “Enrollment Management Revisited”, and an 85-page document titled “A Practical Guide to Strategic Enrollment Planning.” The January 27th EMC meeting was the first formal discussion of these assorted documents.

--Nan Gomez-Heitzeberg reported that her secretary Tracy Hall had run into some difficulties getting electronic versions of these documents uploaded to the EMC webpage. (In order to meet EMC goal #2, providing information and educating the campus community about enrollment management concerns, the EMC committee would like to post electronic versions of Enrollment Management documents on the EMC webpage for easy access to campus personnel.)

--The EMC committee primarily discussed the 8-page enrollment management document by Janet Ward. The committee has not yet discussed in any detail the Porterville College and Orange Coast College enrollment management plans, nor the longer documents titled “Enrollment Management Revisited” and “A Practical Guide to Strategic Enrollment Planning.”

--It was suggested that “A Practical Guide to Strategic Enrollment Planning” be forwarded to the Strategic Directions Committee. The EMC is hoping to incorporate the Strategic Directions Committee work into BC’s next formal long-term Enrollment Management Plan. The “Practical Guide” has several useful worksheets that should aid the Strategic Directions Committee members in the completion of their work.

--The Faculty Co-Chair for the EMC Committee, Mark Staller, announced that he was on load-bank release for the Spring 2015 Semester.

Note From Mark Staller: After speaking to several faculty members and administrators, I have decided to take the traditional, true load-bank release time for the Spring Semester. I had originally intended to continue co-chairing the EMC for the Spring semester, but will step
aside for the remainder of the Spring Semester. The immediate past faculty co-chair of the EMC, Michael Korcok, is willing to fill in as my replacement for the remaining three Spring EMC meetings. I have indicated Michael’s willingness to step in for these three meetings to the Academic Senate, and we will follow the Senate’s directions on how to proceed with a temporary faculty co-chair replacement.

Equal Opportunity & Diversity Advisory (Hirayama)
Bryan Hirayama reported that EODA Committee has been participating in the Faculty Screening committees to include diversity training. He announced that Safe Space training will be returning this semester. Bryan will be participating in the Equity Conference-Equity in Action.

ISIT (Marquez)-Report submitted as written:

Information Systems Instructional Technology (ISIT) Report: March 2, 2015

By Richard Marquez

- The last ISIT committee meeting was held on March 2, 2015
- Todd Coston and Kristin Rabe gave a brief recap of the Technology Conference. If you missed the event, both presentation by keynote speaker Michael Wesch are posted on the BC website: www.bakersfieldcollege.edu/conference.
- The recent phone outage was discussed. While there are some suspicions about what caused the outage, this has not been verified. No clear reason for the outage has been determined.
- Todd also advised that the emergency broadcast feature of the new phone system is still not functional. There is some discussion about creating groups to which to broadcast. There are still old phones in many faculty offices. Todd is trying to get them replaced, but, of course, money is the primary factor in doing so.
- The committee was made aware of Cerro Coso’s proposal for creating an Online Course Management system. CC would like to absorb students on waitlists for online courses throughout the district. Bill Moseley is working on a BC response to this proposal.
- The remainder of the meeting was spent discussing and revising the technology request portion of Program Review. Kristin Rabe has recently compiled the results of the last program review, which indicate that the questions need to be modified in order to get a more accurate assessment of existing technology and the need for new technology.

The negotiations team met with the District and a facilitator on Feb. 27, 2015. A few issues were agreed upon using interest-based bargaining, but there are still some issues that need additional work.
