BP 3050 INSTITUTIONAL CODE OF ETHICS

Reference:
WASC/ACCJC Accreditation Standard III.A.13

The Kern Community College District recognizes that a commitment to the highest ethical and professional standards on the part of all persons associated with the District is necessary to fulfilling our mission and realizing our vision, which are policies of the District. This code of ethics is based on two fundamental principles.

The first is recognition of the dignity of all persons, which respects the inherent value and worth of each person. The second principle is a commitment to fulfilling our obligations to others using fair and honest means.

All associates in the District, faculty, students, management, classified staff, and trustees, as well as volunteers and vendors, each bear personal responsibility for their own ethical behavior and for the ethical stature of our organization. We are committed to fulfilling the District’s mission. While we recognize the relationship between law and ethics, we further understand that legal requirements are necessary but not sufficient, and we endeavor always to do what is right and just, even when no one is watching, compelling, or evaluating our actions.

Respect for Persons and Academic Freedom (see BP 4030 titled Academic Freedom)

The inherent dignity of all persons requires that we conduct ourselves with civility in all circumstances of our professional lives. This means that we do not participate in or accept, condone, or tolerate physical or verbal forms of aggression, threat, harassment, ridicule, or intimidation. The District is an institution of higher education and especially values a spirit of free inquiry and free speech. The District encourages the expression of a range of points of view, but we expect all expressions of content to be conducted in a manner respectful of persons. The District nurtures an atmosphere of mutual respect by treating everyone with dignity, even when the values, beliefs, or behavior of a person or group is different from our own. The District recognizes this foundation of mutual respect to be the basis of civil discourse in an academic environment.

The District further protects the dignity of persons by maintaining the boundaries of both necessary and appropriate confidentiality, and by prohibiting the
exploitation of all persons through sexual harassment or financial, professional, or any other form of exploitation. The District seeks to develop policies, procedures, and practices which are both compassionate and fair. In order to assure that we are fair in our policies, procedures, and practices regarding the dignity and worth of persons, the District specifically prohibits discrimination as codified in BP/AP 3410 titled Nondiscrimination. While this prohibition is necessary, it is the genuine valuing of diversity that serves to create the general atmosphere in which persons can thrive and realize their potential.

**Fairness and Honesty**

The District desires to participate in a healthy work environment which emphasizes the achievement of our common purpose and the development of our potential as individuals and as an organization.

The District will actively work to build the trust necessary to conduct its mission through open, honest, and fair practices and communication at all levels.

The District values and practices the sharing of information, transparency of policy, and consistency of practice in all its dealings.

The District does not tolerate or condone dishonest practices, such as lying, stealing, plagiarizing, cheating, or deliberate misrepresentation of self, program, or information.

The District does not tolerate the misappropriation of resources of any kind, either through misuse of property, time, equipment, or systems, or through inaccurate reporting which results in personal or group gain.

The District develops and uses systems for the prohibition of bias, and for the reporting of conflict of interest, including conflicts resulting from work relationships in which employees have more than one role in relation to another person, resulting in social pressures on professional conduct.

In those circumstances where such conflicts cannot be avoided and/or are considered minor in scope, we will commit to open and transparent consultation with supervisors and colleagues in order to protect individual rights, professional reputations, and the ethical reputation of our institution.

The District will engage in self-monitoring and open information sharing to assure fairness in the distribution of resources necessary to support its mission.

**Competence**

The District recognizes the importance of competence to the effectiveness and trustworthiness of its endeavors. The District maintains currency in all areas of responsibility and seeks and uses feedback for improved performance, while also recognizing and celebrating performance achievements. The District is aware of and will behave in accordance with the policies and practices of its various professional associations and share these practices with students and colleagues.
The District will further acknowledge and seek intervention related to impediments to competent performance, including but not limited to continuing education needs, drug and alcohol abuse, and physical or mental impediments to competent performance of our duties. The District will use appropriate systems to support rehabilitation and/or accommodation.

Conclusion

The District celebrates its existence as a unique institution for the realization of human potential in the geographic area it serves and through the global connections fostered by its online programs.

The District prizes most highly the education and achievements of students, and the fostering of lifelong learning throughout its organization.

The District allows this value not only to direct our positive behavior and limit our potentially negative behavior, but to inspire us with a sense of shared purpose and a willingness to cooperate with one another in developing the highest potential in individuals and communities.

Compliance with NIMS and SEMS mandates include but are not limited to:

- Establishing disaster preparedness procedures or a plan; and
- Completion of training sessions by college personnel in compliance with NIMS and SEMS guidelines

Training requirements vary based on job titles or assigned roles within the emergency plan. College personnel must be informed that as public employees, they are also disaster service workers during national, state, and local emergencies. The District must ensure that its employees are in compliance with the disaster service worker oath requirements.
The Chancellor and College Presidents should ensure that a team is created to carry out compliance with NIMS and SEMS mandates. The responses to emergencies or natural disasters are organized by SEMS into five categories: field response, local government, operational areas, regions, and state.

The plan should contain information regarding activation and chain of command responsibilities. Compliance with NIMS mandates requires planning and incorporation for all phases of emergency management including mitigation and prevention, preparedness, response and recovery. The Colleges and District Office must ensure that its plan is updated regularly. Colleges must comply with NIMS and SEMS to receive federal or state funding.

**Policy Statement**

The Kern Community College District strongly supports creating a safe working environment for all of its employees. The purpose of this policy is to provide a reasonable and organized method of maintaining a safe environment for students, faculty, visitors, and staff of the District and Colleges during emergency situations.

The District shall have emergency response and evacuation procedures for notifying the campus community in the event of a significant emergency or dangerous situation involving an immediate threat to the health or safety of students or employees occurring on the campus.

The Chancellor and/or President shall establish an emergency response plan and procedures that ensure that the District and/or College implement a plan to be activated in the event of an emergency, or when a natural disaster or hazardous condition occurs. The District and Colleges shall maintain an incident command team to aid in the creation, maintenance, updating, and implementation of its emergency plan and procedures.

In the event of an emergency, natural disaster, or the occurrence of a hazardous condition the District and Colleges will activate its emergency response plan and procedures to protect and govern employees, students, visitors, and children in childcare programs in district-owned or operated facilities.

This policy shall be used in conjunction with the procedures currently in place and being utilized by the local jurisdictions having emergency response responsibilities.

This plan must comply with the National Incident Management System (NIMS), the Standardized Emergency Management System (SEMS) and should incorporate the functions and principles of the Incident Command System (ICS), the Master Mutual Aid Agreement (MMAA) and any other relevant programs. The plan must incorporate NIMS and SEMS to facilitate the coordination between and among agencies in the event of an emergency or natural disaster. The District and Colleges will comply with SEMS and NIMS to be eligible for state or federal funding of response-related costs. Field operations during an incident will be organized and conducted using ICS.

Compliance with NIMS and SEMS mandates include but are not limited to:
• Establishing disaster preparedness procedures or a plan; and
• Completion of training sessions by college personnel in compliance with NIMS and SEMS guidelines
  o Training requirements vary based on job titles or assigned roles within the emergency plan

College personnel must be informed that as public employees, they are also disaster service workers during national, state, and local emergencies. The District must ensure that its employees are in compliance with the disaster service worker oath requirements.

The Chancellor and/or President should ensure that a team is created to carry out compliance with NIMS and SEMS mandates. The responses to emergencies or natural disasters are organized by SEMS into five categories: field response, local government, operational areas, regions, and state.

The plan should contain information regarding activation and chain of command responsibilities. Compliance with NIMS mandates requires planning and incorporation for all phases of emergency management including mitigation and prevention, preparedness, response and recovery. The District must ensure that its plan is updated regularly. Colleges must comply with NIMS and SEMS to receive federal or state funding.

In an emergency, lines of authority may change. Employees may be assigned to report to any member of the Incident Command System (ICS) team. This may or may not be the employees’ regular supervisor or manager. Employees will follow the direction of the ICS team members during an emergency. All employees will follow the directions of uniformed responders (law enforcement, fire, etc.) at all times.

Emergency response often requires decisions to be made quickly under adverse conditions. Emergency or disaster conditions may require actions which are not listed in the emergency response plan, or which run counter to guidelines suggested. The District, its management, employees, students, and volunteers duly pressed into service during a local emergency or disaster shall act prudently while being protected by the privileges and immunities from liability as provided by law.
