The District Chancellor or designee shall establish procedures that assure appropriate articulation of the District's educational programs with proximate high schools and baccalaureate institutions.

The procedures also may support articulation with institutions including other community colleges and those that are not geographically proximate but that are appropriate and advantageous for partnership with the District.

The Colleges may articulate programs and courses with high schools, limited to Career and Technical Education courses, and with four-year (4-year) institutions.

Articulation agreements shall identify Kern Community College District Board of Trustees approved courses that are comparable and transferable between the community colleges and high schools or four-year (4-year) institutions.

Articulation of courses and programs with four-year (4-year) institutions shall be the responsibility of the College President or designee. University articulation agreements may include, but shall not be limited to, general education requirements and major subject prerequisites. Individual articulation agreements shall be updated and maintained on file at each College.

Articulation of courses and programs with high schools shall be the responsibility of the College President or designee. A plan for articulation shall be developed and implemented at each College.

An articulated high school course is one that the faculty of the college in the appropriate discipline, using procedures developed by the Curriculum Committee, have determined to be comparable to a specific college course that has been recommended by the Curriculum Committee, and approved by the Board of Trustees.
Articulated high school courses may be applied to college requirements in lieu of comparable college courses to partially satisfy:

1. The requirements for a certificate program, including the total number of units required for a certificate;

2. The major requirements in a degree program.

Articulated high school courses used to partially satisfy certificate or major requirements shall be clearly noted as such on the student's academic record if credit for these comparable college courses has been earned via credit by examination. With respect to articulated high school courses, credit by examination will only be granted when the final examination for the high school course has the approval of knowledgeable college faculty in the same field, and the student passes this examination with a satisfactory grade ("A", "B", or "C" level).

Except through credit by examination, articulated high school courses may not be used to satisfy:

1. The requirement that students complete at least 60 units in order to receive an associate degree;

2. Any general education requirement for the associate degree.
