

# Assessment Report to the Academic Senate

April 4, 2022 | Faith Bradham, Faculty Co-Chair

- Assessment last met on March 18, 2022.
- The 2022-23 Program Review Assessment Report has been approved & sent to PRC.
  - After the Accreditation Mid-Term Report team pointed out a lack of evidence showcasing improvements based on assessment, the committee has decided to add a new section to the Assessment Report called Revise, asking for examples of course or program improvements or changes based on past data.
  - We are also revising our Handbook and our acronym (PARR) to reflect this clarification.
- The committee is putting together a series of hands-on, drop-in workshops via Zoom for faculty who need help entering assessment data into eLumen at the end of the semester. These workshops will take place May 9-12—schedule forthcoming in the next few weeks!
- The Committee has received 19 artifacts from 8 pathways on campus as part of its ILO 2 Assessment this year. The Committee will be reviewing these artifacts in the next few weeks before completing a ILO 2 Assessment report & giving a showcase presentation during Flex Week Fall 2022.
