Letter of Intent

1. Why are you interested in being appointed to this position?

I am very interested in becoming more involved inside Bakersfield College. I've been a student for 3 years now and have always been searching for ways to become more integrated on campus. I also believe I have a lot to offer as I am a very hard working passionate person. I would also like to enter into politics later on in life so I believe this can give me a glimpse into what that may be like. I truly believe I will fit in as a member of the Student Government Association as I enjoy interacting and socializing with others to work towards a greater goal. And as a long time student now I feel as though I understand the needs of students.

2. What skills do you have to be successful in this position?

I have people and leadership skills. I am very passionate about proper communication I have read several books on the matter and use these skills on a daily basis. I am also proficient in typing meaning office work will not be an issue. I also have experience in finance such as investing and creating budgets.

3. Why does Bakersfield College have a student government?

I believe Bakersfield College has a student government so that issues may be addressed properly. It is in place so that decisions can be made about various things such as campus activities and proper budget allocation. Also so that there may be teams of individual with ties to the community who can help better our college as they are familiar with how the school functions.
