

# California Community Colleges Change Leadership Summit—Fall 2017:

Exchanging ideas, exploring new concepts, learning together

October 5-6

**General Information:** If your college is looking to capitalize on its local talent and foster leadership development to take student achievement to a higher level, we encourage you to gather a cross-functional team of experienced and emerging leaders to explore new concepts about leading large-scale change at your college. Join us for rich discussions, shared ideas, and provocative questions that will enhance our collective capacity to address student achievement and equity gaps. Together, we will:

1. Develop approaches, mindsets, and tools that enhance local leadership efforts.
2. Assess challenges and opportunities for collective system leadership within and across our institutions.
3. Identify and explore leadership demands for undertaking whole systems change.

This will be the first in a series of convenings sponsored by IEPI to support California Community Colleges dialogue and change leadership development.
