

Jose Chavez  
Spring 2016  
Letter of Intent

Dear peers,

I am submitting this letter with the intent to inform you of my interest to run for office as a SGA senator. As a member of this community, I have developed an eccentric viewpoint that allows me to grasp the potential here at Bakersfield College. At the current moment, that potential is overshadowed by the lack of accessibility to reliable networking. The best of resources are currently not being utilized to their capacity. I plan to facilitate pathways for students to take full advantage of all of the perks of Bakersfield College. By doing so, I project that both faculty and students will benefit as both aim for one goal: student success. Success not only defines itself with an academic facet but also its counterpart (and also less dealt with), the personal success. Both will be critical points of my campaign.

I am an engineering student that is part of the MESA program here at Bakersfield College and I know how hard life can be in and outside of class. If I am elected for senator I will listen and act in behalf of the students voices in order to acquire positive changes.

Sincerely,

Jose Chavez
