The Student Services Building is now named CENTER for STUDENT SUCCESS. It will take some time to get all of the SS changed to CSS for Banner, offices, etc. Students may be a bit confused during the process.

All of the outer doors on campus building are going to have card locks. The work is starting this fall. Completion date? Until the new computerized system is ready to go live, all current keys will still work. More details as the project moves forward will be provided.

Student IDs are available in Welcome Center in Admission Building. Ask at counter for details.
