Subject: Nomination for Manager of Student Activities

I nominate Elizabeth Daiz to the Managing position of Student Activities. I believe that Elizabeth is very kind and outgoing, she is fun and encourages students to come to events. Not only is she truly involved in student life here in Bakersfield College but she strives to be more involved in Student government. That shows determinations and ambition that are great qualities for people in Student Government. She is a helpful person around campus and to the students. She loves going to activities on campus and wants to learn more about the situation of the management position in student activities. Senate please consider Elizabeth Diaz for this position.
