

Letter of intent

I am interested in running for BCSGA because I want to ensure the students voices are being heard and represented through different organizations. I am committed to further my education in political science and becoming an attorney. I desire to practice immigration law, because it is a form to give back to my community.

My interest in running for the Bakersfield College Student Government Association is because I have acquired experience through my community service and the clubs, I am involved in that would benefit BCSGA. I am a leader and an advocate for AB540 students.

I have leadership skills, I am currently the Vice President of a two Bakersfield college clubs, Latinos Unidos Por Educacion (L.U.P.E.) and Youth Empowering Successes (Y.E.S.). I am also part of Conexiones Estudiantiles project.

Bakersfield college has a student government so that the elected officials represent the voices of the students, address students' needs and concerns. Also allocates the campus centers fees to programs and services. BCSGA regulates student organizations to ensure they are operating equitably and following BCSGS By-laws, constitution and college policy.

I will bring more representation for the students, ensuring that the Bakersfield college student government association is aware of students needs on campus.
