To whom it may concern

I have always had a passion on giving back to the community in any way I can. I want to make a difference at school by running for director of activities and become a cheerleader to the students on their time being on campus by arranging activities and events that will get students involved and be informed. I have the dedication and will to make sure students have fun with the ideas and different awareness I bring to them. The skills I have to run for the position in which I am running for is a good listener, Dependability/Reliability/Responsibility, Dedication, Interpersonal abilities, leadership and management skills, Multicultural Sensitivity/Awareness, Teamwork, Willing to learn, and Positive Attitude/Motivation/Energy/Passion. The reason why Bakersfield College has a student government is to improve students' needs on campus and have dedicated team to make sure every need is being considered for the students.
