

# Returning to Campus – Fall 2020: Shared Responsibilities

August 24, 2020

Presented By: Bakersfield College COVID-19 Response Team

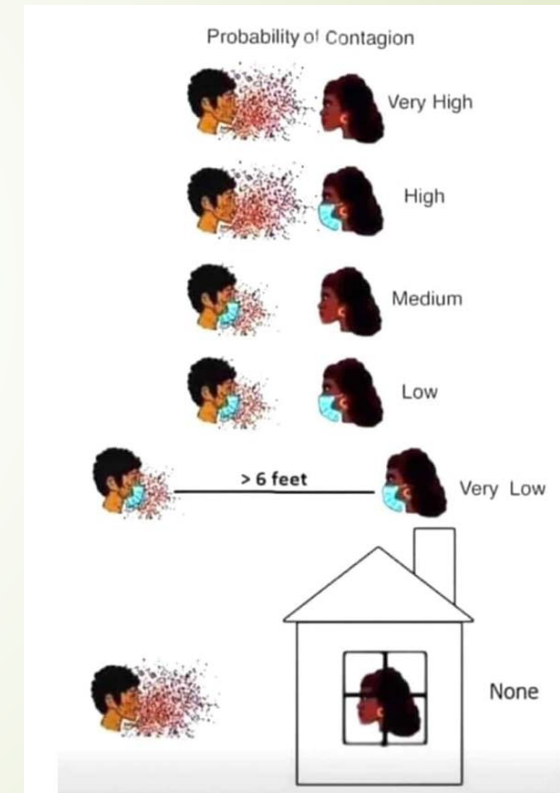

# Health and Safety of Students/Staff

- ▶ Business “Unusual” – these are unique times and we need to use caution and common sense as we begin the incremental re-opening of the campus
- ▶ Higher Education is not open however institutions can provide limited on-campus activities depending on local health conditions, consideration of educational programs and needs, and health and safety needs of students and employees but we must do the following:
  - ▶ Limit non-essential visitors and campus activities
  - ▶ Only provide essential courses in a hybrid manner
  - ▶ Courses offered in specialized settings must provide substantial physical distancing

# Importance of Social Distancing/Wearing A Mask

- ▶ COVID-19 can be a serious threat to you and your loved ones. This is not an exaggeration – it's our shared reality.
- ▶ It's imperative that we are aligned as partners in tandem to take this seriously and understand that the shared responsibility lies with each of us as individuals, it is not the sole responsibility of the institution.
- ▶ What we learned this summer is that as we began to reopen up our community, we became complacent in disease prevention behaviors and now we are seeing more people effected by these behaviors.

# Health and Safety – Student Responsibilities

- Read Student Attestation
- Agree and acknowledge that there are risks associated with Face to Face Instruction
- Sign Attestation form and return to instructor – electronic signature is allowable
