(1) For the 2018–19 and 2019–20 fiscal years, a level of funding to ensure that all community college districts receive at a minimum the total computational revenue the district received in the 2017–18 fiscal year, defined as a district’s final entitlement for general purpose apportionment based on FTES and the number of colleges and comprehensive centers the district operates.

(2) Commencing with the 2020–21 fiscal year, and each year thereafter, community college districts shall receive the higher of (A) the funding level determined by the formula established in this section, or (B) the level of funding determined by multiplying the community college district’s new FTES by the associated credit, noncredit, and career development and college preparation rate received by the district in the 2017–18 fiscal year. The level of funding shall be adjusted to include a basic allocation based on the number of colleges and comprehensive centers in the district consistent with the basic allocation rates used in the 2017–18 fiscal year.

(4) Decreases in a community college district’s total revenue computed pursuant to the sum of subdivisions (d), (e), and (f), or computed pursuant to this subdivision shall result in the associated reduction beginning in the year following the initial year of decreases.

(h) For the fiscal years 2018–19 to 2020–21, inclusive, each community college district whose increase in 2017–18 general purpose apportionment funding computed pursuant to Section 84750.5, compared to apportionment funding computed pursuant to this section, is less than the year-over-year cost-of-living adjustments applicable to those fiscal years, shall receive discretionary resources in an amount needed to ensure the community college district receives no less than their 2017–18 general purpose apportionment funding computed pursuant to Section 84750.5 adjusted for annual year-over-year cost-of-living adjustments.

to be funded separately through the annual Budget Act, and shall not be assumed under the budget formula otherwise specified by this section.

(5) All meetings of the committee shall be subject to Article 9 (commencing with Section 11120) of Chapter 1 of Division 3 of Title 2 of the Government Code. The chancellor’s office shall provide the committee with guidance and assistance, as necessary, to ensure the committee is in compliance with the requirements of this paragraph.

(B) Committee members shall not include any state legislator, member of the Board of Governors of the California Community Colleges, a trustee of a local governing board of a community college district, legislative staff, or staff from the Department of Finance.

(7) The committee shall arrive at a consensus as a condition of having a specified finding or recommendation included in the reports described in subdivision (c).

(c) (1) The committee shall review and make recommendations on the following aspects of the funding formula:

(A) The first priority of the committee shall be to review and make recommendations to the Legislature and the Department of Finance on or before January 1, 2020, on the following elements and their inclusion in the supplemental allocation of the funding formula including a proposed implementation plan.

(Amended by Stats. 2018, Ch. 426, Sec. 31. (AB 1840) Effective September 17, 2018. Repealed as of January 1, 2022, by its own provisions.)

84750.5. (a) The board of governors, in accordance with the statewide requirements contained in paragraphs (1) to (9), inclusive, of subdivision (d), and in consultation with institutional representatives of the California Community Colleges and statewide faculty and staff organizations, so as to ensure their participation in the development and review of policy proposals, shall develop criteria and standards for the purpose of making the annual budget request for the California Community Colleges to the Governor and the Legislature, and for the purpose of allocating the state general apportionment revenues.

(b) In developing the criteria and standards, the board of governors shall use and strongly consider the recommendations and work product of the “System Office Recommendations Based on the Report of the Work Group on Community College Finance” that was adopted by the board at its meeting of March 7, 2005. The board of governors shall complete the development of these criteria and standards, accompanied by the necessary procedures, processes, and formulas for using its criteria and standards, by March 1, 2007, and shall submit on or before that date a report on these items to the Legislature and the Governor.

(c) (1) It is the intent of the Legislature in enacting this section to improve the equity and predictability of general apportionment and growth funding for community college districts in order that the districts may more readily plan and implement instruction and related programs, more readily serve students according to the policies of the state’s master plan for higher education, and enhance the quality of instruction and related services for students.

(2) It is the intent of the Legislature to determine the amounts to be appropriated for purposes of this section through the annual Budget Act. Nothing in this section shall be construed as limiting the authority either of the Governor to propose, or the Legislature to approve, appropriations for California Community Colleges programs or purposes.

(d) The board of governors shall develop the criteria and standards within the following statewide minimum requirements:

(1) The calculations of each community college district’s revenue level for each fiscal year shall be based on the level of general apportionment revenues, state and local, the community college district received for the prior year plus any amount attributed to a deficit from the adopted standards to be developed pursuant to this section, with revenue adjustments being made for increases or decreases in full-time equivalent students (FTES), for equalization of funding per credit FTES, for necessary alignment of funding per FTES between credit and noncredit programs, for inflation, and for other purposes authorized by law.

(2) Commencing with the 2006–07 fiscal year, the funding mechanism developed pursuant to this section shall recognize the need for community college districts to receive an annual allocation based on the number of colleges and comprehensive centers in the community college district. In addition to this basic allocation, the marginal amount of credit revenue allocated per FTES shall be funded at a rate not less than four thousand three hundred sixty-seven dollars ($4,367), as adjusted for the change in the cost-of-living in subsequent annual budget acts.
(A) To the extent that the Budget Act of 2006 contains an appropriation of one hundred fifty-nine million four hundred thirty-eight thousand dollars ($159,438,000) for community college equalization, the Legislature finds and declares that community college equalization for credit FTES has been effectively accomplished as of March 31, 2007.

(B) The chancellor shall develop criteria for the allocation of one-time grants for those community college districts that would have qualified for more equalization under prior law than pursuant to this section and the Budget Act of 2006, and for those community college districts that would have qualified for more funding under a proposed rural college access grant than pursuant to this section and the Budget Act of 2006, as determined by the chancellor. Appropriations for the one-time grants shall be provided pursuant to paragraph (24) of subdivision (a) of Section 43 of Chapter 79 of the Statutes of 2006.

(3) Noncredit instruction shall be funded at a uniform rate of two thousand six hundred twenty-six dollars ($2,626) per FTES, as adjusted for the change in the cost of living provided in subsequent annual budget acts.

(4) Funding for instruction in career development and college preparation, as authorized pursuant to Section 84760.5, shall be provided as follows:

(A) (i) Beginning in the 2006–07 fiscal year, career development and college preparation FTES may be funded at a rate of three thousand ninety-two dollars ($3,092) per FTES for courses in programs that conform to the requirements of Section 84760.5. This rate shall be adjusted for the change in the cost of living or as otherwise provided in subsequent annual budget acts.

(ii) Beginning in the 2015–16 fiscal year, career development and college preparation FTES shall be funded at the same level as the credit rate specified in paragraph (2). This rate shall be adjusted for the change in the cost of living or as otherwise provided in subsequent annual budget acts.

(iii) The Legislative Analyst shall report to the Legislature on or before March 1, 2017, regarding the change in funding specified in clause (ii), including whether community colleges offered additional classes or programs related to career development or college preparation, and whether there was any change in FTES.

(iv) (I) The requirement for submitting a report imposed under clause (iii) is inoperative on March 30, 2019, pursuant to Section 10231.5 of the Government Code.

(II) A report submitted pursuant to clause (iii) shall be submitted in compliance with Section 9795 of the Government Code.

(B) Changes in career development and college preparation FTES shall result in adjustments to revenues as follows:

(i) Increases in career development and college preparation FTES shall result in an increase in revenues in the year of the increase and at the average rate per career development and college preparation FTES, including any cost-of-living adjustment authorized by statute or by the annual Budget Act.

(ii) Decreases in career development and college preparation FTES shall result in a revenue reduction in the year following the decrease at the average rate per career development and college preparation FTES.

(5) Except as otherwise provided by statute, current categorical programs providing direct services to students, including extended opportunity programs and services, and disabled students programs and services, shall continue to be funded separately through the annual Budget Act, and shall not be assumed under the budget formula otherwise specified by this section.

(6) For credit and noncredit instruction, changes in FTES shall result in adjustments in community college district revenues as follows:

(A) Increases in FTES shall result in an increase in revenues in the year of the increase and at the amount per FTES provided for in paragraph (2) or (3), as appropriate, including any cost-of-living adjustment authorized by statute or by the annual Budget Act.

(B) Decreases in FTES shall result in revenue reductions beginning in the year following the initial year of decrease in FTES, and at the district’s marginal funding per FTES.

(C) Community college districts shall be entitled to the restoration of any reductions in apportionment revenue due to decreases in FTES during the three years following the initial year of decrease in FTES if there is a subsequent increase in FTES.

(7) Revenue adjustments shall be made to reflect cost changes, using the same inflation adjustment as required for school districts pursuant to paragraph (2) of subdivision (d) of Section 42238.02. These revenue adjustments shall be made to the college and center basic allocations, credit and noncredit FTES funding rates, and career development and college preparation FTES funding rates.

(8) The statewide requested increase in budgeted workload FTES shall be based, at a minimum, on the sum of the following computations:
(A) Determination of an equally weighted average of the rate of change in the state’s population of persons between the ages of 19 and 24 and the rate of change in the state’s population of persons between the ages of 25 and 65, both as determined by the Department of Finance’s Demographic Research Unit as determined for the preceding fiscal year.

(B) To the extent the state’s unemployment rate exceeds 5 percent for the most recently completed fiscal year, that positive difference shall be added to the rate computed in subparagraph (A). In no event shall that positive difference exceed 2 percent.

(C) The chancellor may also add to the amounts calculated pursuant to subparagraphs (A) and (B) the number of FTES in the areas of transfer, vocational education, and basic skills that were unfunded in the current fiscal year. For this purpose, the following computation shall be determined for each community college district, and a statewide total shall be calculated:

(i) Establish the base level of FTES earned in the prior fiscal year for transfer courses consisting of courses meeting the California State University breadth or Intersegmental General Education Transfer Curriculum requirements or major course prerequisites accepted by the University of California or the California State University.

(ii) Establish the base level of FTES earned in the prior fiscal year for vocational education courses consisting of courses defined by the chancellor’s office Student Accountability Model codes A and B that are consistent with the courses used for measuring success in this program area under the accountability system established pursuant to Section 84754.5.

(iii) Establish the base level of FTES in the prior fiscal year for basic skills courses, both credit and noncredit.

(iv) Add the sum of FTES for clauses (i) to (iii), inclusive.

(v) Multiply the result of the calculation made under clause (iv) by one plus the community college district’s funded growth rate in the current fiscal year. This figure shall represent the maintenance of effort level for the budget year.

(vi) FTES in transfer, vocational education, and basic skills that are in excess of the total calculated pursuant to clause (v), shall be considered in excess of the maintenance of effort level, and shall be eligible for overcap growth funding if the community college district exceeds its overall funded FTES.

(vii) In no event shall the amount calculated pursuant to clause (vi) exceed the total unfunded FTES for that fiscal year. To the extent the computation specified in subdivision (c) requires the reporting of additional data by community college districts, that reporting shall be a condition of the receipt of apportionment for growth pursuant to this section and those funds shall be available to offset any and all costs of providing the data.

(9) Except as specifically provided in statute, regulations of the board of governors for determining and allocating the state general apportionment to the community college districts shall not require community college district governing boards to expend the allocated revenues in specified categories of operation or according to the workload measures developed by the board of governors.

(e) (1) The Chancellor of the Community Colleges shall develop, and the board of governors shall adopt, a revised apportionment growth formula for use commencing with the 2015–16 fiscal year. The chancellor shall allocate apportionments pursuant to the revised formula only after the revised formula, and any formulas for adjustment pursuant to paragraph (2), have been adopted by the board of governors. The revised apportionment growth formula shall support the primary missions of the segment, and shall be based on each community’s need for access to the community colleges, as determined by local demographics. In developing the revised formula, the chancellor shall consider multiple factors in determining need; however, the primary factors shall be:

(A) (i) The number of persons under 25 years of age without a college degree, within a community college district’s boundaries, and the number of persons 25 to 64 years of age, inclusive, without a college degree, within a community college district’s boundaries.

(ii) Notwithstanding clause (i), the chancellor may use alternative age ranges depending on the availability of data.

(B) The number of persons who are unemployed, have limited English skills, who are in poverty, or who exhibit other signs of being disadvantaged, as determined by the chancellor, within a community college district’s boundaries.

(2) Beginning with the 2016–17 fiscal year, the chancellor shall adjust upward the need determination based on each community college’s effectiveness in serving residents of neighborhoods, within or outside of the community college district’s boundaries, that exhibit the highest levels of need in the state.

(3) The chancellor shall calculate each community college district’s proportionate share of the statewide need for access to the community colleges based on the application of this formula described in paragraph (1), as adjusted pursuant to paragraph (2).
(4) The chancellor shall calculate the difference between each community college district’s proportionate share of the statewide need for access to the community colleges, as calculated pursuant to paragraph (3), and its current proportionate share of statewide enrollment in the community colleges.

(5) (A) Until a community college district reaches its highest level of apportionment revenues previously received, its apportionment revenues shall be eligible to increase by the lesser of 1 percent of its current apportionment base, or one-half of the statewide growth allocation on a proportionate basis, regardless of need.

(B) After a community college district reaches its highest level of apportionment revenues previously received, it is eligible to increase its apportionment revenues by the lesser of one-half of 1 percent of its current apportionment base, or one-quarter of the statewide growth allocation on a proportionate basis, regardless of its need.

(6) The remainder of the apportionment growth funding shall be allocated to allow each community college district to grow its apportionment revenues based on its relative share of the difference between the amounts calculated in paragraph (4), up to a maximum of its apportionment base for the preceding fiscal year appropriate to ensure that community college district is advancing the primary missions of the segment. The maximum established by the chancellor shall not be less than 5 percent nor greater than 10 percent of a community college district’s apportionment base for the preceding fiscal year.

(7) Unless otherwise agreed upon by the board of governors, apportionment reductions shall be allocated proportionally based on the most recent levels of apportionment revenues.

(8) (A) It is the intent of the Legislature, consistent with direction provided in the 2014–15 Budget Act, that apportionment growth funding be expended for purposes of increasing the number of FTES in courses or programs that support the primary missions of the segment.

(B) (i) Notwithstanding Section 10231.5 of the Government Code, on or before October 15, 2015, and each year thereafter, the chancellor shall report to the Legislature on the course sections and FTES added at each community college that received apportionment growth funding in the prior fiscal year, including the number of course sections and if any course sections and FTES were added that are within the primary missions of the segment and those that are not within the primary missions of the segment.

(ii) A report submitted to the Legislature pursuant to clause (i) shall be submitted in compliance with Section 9795 of the Government Code.

(C) For purposes of this section, “primary missions of the segment” means credit courses and those noncredit courses specified in paragraphs (2) to (6), inclusive, of subdivision (a) of Section 84757.

(f) (1) It is the intent of the Legislature to allow for changes to the criteria and standards developed pursuant to subdivisions (a) to (d), inclusive, in order to recognize increased operating costs and to improve instruction.

(2) (A) If the annual budget act identifies funds appropriated specifically for the purposes of this subdivision, the chancellor shall adjust the budget request formula to allocate those funds without altering any of the adjustments described in subdivision (d). At least 30 days before allocating any state general apportionment revenues using a budget request formula revised pursuant to this subdivision, the chancellor shall submit to the Department of Finance and the Legislature a description of the specific adjustments made to the budget request formula.

(B) A report to the Legislature pursuant to subparagraph (A) shall be submitted in compliance with Section 9795 of the Government Code.

(g) Notwithstanding Subchapter 1 (commencing with Section 51000) of Chapter 2 of Division 6 of Title 5 of the California Code of Regulations and Section 84751, the chancellor shall allocate the ongoing funds first appropriated pursuant to paragraph (1) of subdivision (e) of provision (2) of Item 6870-101-0001 of Section 2.00 of the Budget Act of 2015 (Chapters 10 and 11, Statutes of 2015) to all community college districts, including districts that have offsetting local revenues that exceed the funding calculated pursuant to the district’s budget formula, on a per FTES basis by modifying each district’s budget formula pursuant to this section. Any revisions to the budget formula made for the purposes of this subdivision shall be made and reported consistent with the requirements of subdivision (f).

(h) Commencing with the 2018–19 fiscal year, this section shall only be used to allocate revenue pursuant to subparagraph (A) of paragraph (3) of subdivision (e) of Section 36 of Article XIII of the California Constitution, to compute allocations for noncredit instruction and career development and college FTES, and to compute allocations to community college districts for fiscal years prior to the 2018–19 fiscal year.

(Amended by Stats. 2018, Ch. 33, Sec. 34. (AB 1809) Effective June 27, 2018.)

84750.6. (a) Notwithstanding Section 84750.5, the board of governors shall provide the San Francisco Community College District with revenues, as specified in subdivision (b), if, on the effective date of the act that adds this section, both of the following conditions are satisfied:

(1) The board of governors finds that the community college district or a campus of the community college district is in imminent jeopardy of losing its accreditation.
(2) The board of governors has exercised its authority pursuant to Section 84040 of this code and Section 58312 of Title 5 of the California Code of Regulations as that regulation read on April 15, 2014.

(1) For the 2014–15 fiscal year, an amount not less than the total amount that the community college district would receive if the level of attendance of FTES was the same level of attendance as in the 2012–13 fiscal year.

(2) For the 2015–16 fiscal year, an amount not less than 95 percent of the total amount that the community college district would receive if the level of attendance of FTES was the same level of attendance as in the 2012–13 fiscal year.

(3) (A) For the 2016–17 fiscal year, an amount not less than 90 percent of the total amount that the community college district would receive if the level of attendance of FTES was the same level of attendance as in the 2012–13 fiscal year.

(i) Effective fiscal controls and systems are in place.

(ii) The City College of San Francisco has, and is adhering to, prudent fiscal policies and practices, as corroborated by an analysis of multiyear projections of no less than three fiscal years commencing with the 2016–17 fiscal year.

(iii) The City College of San Francisco is applying resources in accordance with a budget plan approved by the special trustee.

(iv) The City College of San Francisco is maintaining appropriate fiscal reserves.

(v) The City College of San Francisco has, and is adhering to, a viable plan to address long-term liabilities including, but not necessarily limited to, “other postemployment benefits,” as that term is used in accordance with generally accepted accounting principles defined by the Governmental Accounting Standards Board as of April 15, 2014.

(c) The amounts calculated in paragraphs (1) to (3), inclusive, of subdivision (b) shall be adjusted by the chancellor to reflect cost-of-living adjustments, deficits in apportionments, or both, as appropriate for the applicable fiscal years.

(d) Subdivision (b) shall only be used to determine the apportionment funding to be allocated to the San Francisco Community College District. In computing statewide entitlements to funding based upon the attendance of FTES, the San Francisco Community College District shall not be credited with more FTES than were actually enrolled and in attendance.

(e) Subdivision (b) shall only be operative for a fiscal year in which the San Francisco Community College District is in compliance with Section 51016 of Title 5 of the California Code of Regulations as that regulation read on April 15, 2014.

(f) It is the intent of the Legislature that any amounts necessary to make the apportionments required pursuant to subdivision (b) be drawn from the state general apportionment revenues for community college districts.

(g) (1) The Chancellor of the City College of San Francisco shall submit all of the following to the appropriate policy and fiscal committees of the Legislature, the office of the Governor, the Legislative Analyst’s Office, and the Department of Finance on or before April 15, 2015:

(D) April 15, 2017, but only if funding is provided pursuant to paragraph (3) of subdivision (b).

(h) For five fiscal years beginning in the 2017–18 fiscal year, the San Francisco Community College District shall be entitled to restoration of any reduction in apportionment revenue due to decreases in FTES, up to the level of attendance of FTES funded in the 2012–13 fiscal year, if there is a subsequent increase in FTES.

(i) Commencing with the 2018–19 fiscal year, this section shall no longer be used to compute allocations to the San Francisco Community College District.

1. For the first fiscal year Compton College is accredited under the governing authority of the Board of Trustees of the Compton Community College District, an amount not less than the total amount that the community college district would receive if the level of attendance of FTES was the same level of attendance as in the 2017–18 fiscal year.

2. For the second fiscal year after Compton College is accredited under the governing authority of Compton Community College District Board of Trustees, an amount not less than 95 percent of the total amount that the community college district would receive if the level of attendance of FTES was the same level of attendance as in the 2017–18 fiscal year.

(c) The amounts calculated pursuant to subdivision (b) shall be adjusted by the chancellor to reflect cost-of-living adjustments, deficits in apportionments, or both, as appropriate for the applicable fiscal years.

84751. (a) In calculating each community college district’s revenue level for each fiscal year pursuant to Section 84750.4 or subdivision (a) of Section 84750.5, as applicable, the board of governors shall subtract, from the total revenues owed, all of the following:

(d) Notwithstanding subdivision (a), for the 2015–16 fiscal year, revenues received pursuant to Sections 34177, 34179.5, 34179.6, and 34188 of the Health and Safety Code after April 15, 2016, shall be counted as revenues received in the 2016–17 fiscal year.

(Amended by Stats. 2018, Ch. 33, Sec. 37. (AB 1809) Effective June 27, 2018.)

Notwithstanding any other provision of law, for the purposes of this article, the revenue level, or full-time equivalent student (FTES) funding for the South Orange County Community College District for the 1996–97 fiscal year, and future fiscal years, shall not include any amounts that should have been allocated to the Saddleback Community College District in the 1994–95 fiscal year but that were not received by the district until the 1996–97 fiscal year, and future fiscal years, due to the bankruptcy proceedings initiated on December 6, 1994, by the County of Orange by its filing of a voluntary Chapter 9 petition in United States Bankruptcy Court, Case No. SA 94-22273-JR. (Added by Stats. 1997, Ch. 242, Sec. 2. Effective August 6, 1997.)

Pursuant to provisions of Chapter 581 of the Statutes of 2004, the board of governors provided the Governor and the Legislature recommendations regarding the design of a workable structure for the annual evaluation of district-level performance in meeting statewide educational outcome priorities. The Legislature recognizes that these recommendations were based on a study process that included input from institutional representatives of community college districts, nationally regarded experts in community college accountability, the Department of Finance, the Office of the Legislative Analyst, community college organizations, and other interested parties. In enacting this section the Legislature hereby establishes a program for the annual reporting and evaluation of district-level performance in achieving priority educational outcomes consistent with the intent of Chapter 581 of the Statutes of 2004. The program includes the following components:

(a) As a condition of receiving specified funds in the annual Budget Act to encourage district-level accountability efforts, community college districts shall provide data, in a format and according to a schedule to be specified by the Office of the Chancellor of the California Community Colleges, for the purpose of the annual report to the Legislature specified in subdivision (b) and for purposes of providing the means for both internal and external assessment of the district’s educational offerings in meeting the high-priority educational goals of the state. The chancellor shall withhold, delay, or reduce funds specified in the annual Budget Act to encourage district-level accountability efforts from a district that fails to provide needed data by specified deadlines. If a district’s failure to report by specified deadlines results in the omission of required data from, or inclusion of erroneous data in, the annual report required
by subdivision (b), the chancellor shall reduce that district’s funding as specified in regulations for the implementation of this section.

(b) With data available through its management information system and other data provided pursuant to subdivision (a), and utilizing resources provided for this purpose in the annual Budget Act, the chancellor shall prepare an annual report to the Legislature, the Governor, the Department of Finance, and the Office of the Legislative Analyst evaluating the achievement of educational outcomes for each community college district and, as warranted, each college. This report shall be provided to the Legislature annually on or before March 31, beginning in 2007. Preliminary data reported from the districts shall be provided to the Department of Finance and the Office of the Legislative Analyst by January 31 of each year, beginning in 2007. For each district, and college as warranted, the report shall: (1) include performance data for the immediately preceding fiscal year, reflecting all measures specified in subdivision (c); (2) compare each district’s and college’s achievement with peer groups within the system as applicable to specific metrics; and (3) compare each district’s and college’s achievements with that of the system as a whole. The report shall further include a profile with summary background information on each district’s or college’s educational programs, missions, students, and service area demographics.

(c) (1) The report shall include, but not be limited to, district or college-level performance on outcome measures in the following categories:

(A) Student progress and achievement: degrees, certificates, and transfers.
(B) Student progress and achievement: vocational, occupational, and workforce development.
(C) Pre-collegiate improvement, including basic skills and English-as-a-second language.

(2) The specific measures to be included in the report shall reflect the April 2005 board of governors recommendations as refined and amended in consultation with the Department of Finance and the Office of the Legislative Analyst, and shall be periodically reviewed, in consultation with the Department of Finance and the Office of the Legislative Analyst, and, if necessary, modified by the chancellor. It is the intent of the Legislature that specific performance metrics and annual reporting requirements may be specified in annual Budget Acts, if warranted, by changes in state needs, legislative priorities, or the availability of data.

(d) As a condition of receiving specified funds in the annual Budget Act, each community college district board of trustees shall annually review and adopt its contribution to the segmentwide annual report as part of a regularly scheduled and noticed public meeting at which public comment shall be invited.

(e) The board of governors shall adopt regulations that it deems necessary to carry out this section no sooner than 30 days after notification in writing by the chancellor to the Director of Finance and the Chairperson of the Joint Legislative Budget Committee.

(Added by Stats. 2005, Ch. 73, Sec. 21. Effective July 19, 2005.)

84754.6. (a) The Chancellor of the California Community Colleges, in coordination with community college stakeholder groups, the appropriate fiscal and policy committees of the Legislature, and the Department of Finance, shall develop, and the board of governors shall adopt, a framework of indicators designed to measure the ongoing condition of a community college's operational environment in the following areas:

(1) Accreditation status.
(2) Fiscal viability.
(3) Student performance and outcomes.
(4) Programmatic compliance with state and federal guidelines.

(b) As a condition of receipt of funds appropriated for purposes of Article 1 (commencing with Section 78210) of Chapter 2 of Part 48, each community college within a community college district shall develop, adopt, and publicly post a goals framework that addresses at least all of the areas specified in subdivision (a). The development of the goals framework shall be guided by the statewide goals outlined in Section 66010.91. It is the intent of the Legislature that these goals be challenging and quantifiable, address achievement gaps for underrepresented populations, and align the educational attainment of California’s adult population to the workforce and economic needs of the state, pursuant to the legislative intent expressed in Section 66010.93.

(c) The board of governors shall annually develop, adopt, and publicly post a systemwide goals framework that addresses at least all of the areas specified in subdivision (a). The development of the systemwide goals shall be guided by the statewide goals set forth in Section 66010.91. It is the intent of the Legislature that these goals be challenging and quantifiable, address achievement gaps for underrepresented populations, and align the educational attainment of California’s adult population to the workforce and economic needs of the state, pursuant to the legislative intent expressed in Section 66010.93.

(d) Before the commencement of the 2015–16 fiscal year, and before the commencement of each fiscal year thereafter, the Chancellor of the California Community Colleges shall publicly post both of the following:
(1) Annually developed systemwide goals adopted by the board of governors.

(e) Subject to the availability of funding in the annual Budget Act, the board of governors and the Chancellor of the California Community Colleges shall assess the degree to which each community college district is improving its outcomes in regard to the areas specified in subdivision (a) and any additional issues addressed in the goals frameworks described in subdivision (b), and shall offer technical assistance to community college districts that are not improving.

(f) If a community college district is receiving technical assistance pursuant to subdivision (e), the community college district shall submit a turnaround plan that details all of the following:

1. The problem the technical assistance is attempting to solve.
2. How the identified problem will be addressed in a plan adopted by the governing board of the community college district.
3. A timetable of major milestones for improvement.
4. Updates that will be submitted to the Chancellor of the California Community Colleges on the outcomes in regard to those milestones, as scheduled by the chancellor.

(Amended by Stats. 2014, Ch. 687, Sec. 8. (SB 876) Effective September 27, 2014.)

84755. (a) The Legislature finds and declares that program-based funding, once implemented, will more adequately and accountably fund the costs of providing quality community college education. Given that program-based funding will not be implemented until fiscal year 1991–92, given that community colleges will be entering a period of major reform andincurrence of new state mandates commencing in January 1989, and given that community colleges will be entering this period of reform having lost purchasing power since the 1977–78 fiscal year, the Legislature recognizes the need to create a transitional funding mechanism for program improvement and mandate funding that can operate until program-based funding is implemented.

(b) For the purpose of improving the quality of community college educational programs and services, for the purpose of reimbursing state-mandated local program costs imposed by this act, and for the purposes of initially implementing specified reforms, the board of governors shall, from amounts appropriated for purposes of this section, allocate program improvement revenues to each district on the basis of an amount per unit of average daily attendance funded in the prior fiscal year. However, this amount shall be increased or decreased to provide for equalization in a manner determined by the Board of Governors, consistent with Sections 84703 to 84705, inclusive.

Each community college district shall use its allocation to initially reimburse state-mandated local program costs, and then to implement specified reforms and make authorized program and service improvements as follows:

2. Applying minimum qualifications to all newly hired faculty and administrators, including candidates for these positions as required by Section 87356.
3. Developing and administering a process for waiver of minimum qualifications as required by Section 87359.
4. Establishing and applying local hiring criteria as required by Section 87360.

7. Establishing and applying new processes for tenure evaluation required by Section 87610.1.
8. Establishing and applying the tenure denial grievance procedure required by Section 87610.1.
9. Establishing and applying a process for moving administrators into faculty positions as required by Sections 87454 to 87458, inclusive.
10. Publishing and distributing a report on the affirmative action success rate as required by Section 87102.
11. Improving instruction by reducing the ratio of full-time equivalent students to full-time equivalent instructors.
12. Improving instruction by increasing the hiring of full-time instructors and limiting the practice of hiring part-time instructors.
13. Augmenting budgets for college libraries and learning resources.
15. Adding new courses or programs to serve community need.
(16) Making progress towards affirmative action goals and timetables established by the district.

(17) Developing and maintaining programs and services authorized by Section 78212.5.

A governing board shall approve reassignment time for no more than 5 percent of the district's full-time equivalent tenured faculty in any one fiscal year.

(c) Except as provided by Section 87482.6, and except as necessary to reimburse the costs of new state mandates, district governing boards shall have full authority to expend program improvement allocations for any or all of the authorized purposes specified in subdivision (b).

(d) As required by the board of governors, the governing board of each community college district shall submit to the board of governors a plan for using the resources allocated pursuant to this section. The board of governors shall review each plan to ensure that proposed expenditures are consistent with the listing of authorized expenditures provided in this section, and the board of governors shall approve all plans to the full extent that expenditures are authorized by this section. To the extent that a community college district expends its program improvement allocation consistent with its plan, the board of governors shall include the district’s allocation as part of the district’s base budget for subsequent years.

(e) The board of governors, through the annual systemwide budget submitted pursuant to paragraph (5) of subdivision (b) of Section 70901, shall request necessary resources for the purposes of this section. It is the intent of the Legislature that the appropriation and allocation of program improvement money not otherwise provided pursuant to subdivision (b) shall be accomplished through the annual state budget process beginning with the 1989–90 fiscal year. After June 30, 1991, if Section 84750 is implemented, it is the intent of the Legislature to fund the ongoing operations of community college districts pursuant to Section 84750.

(Amended by Stats. 1993, Ch. 449, Sec. 1. Effective January 1, 1994.)

It is also the intent of the Legislature that community college districts with noncredit programs consider the need for both credit and noncredit allocations in allocating future growth pursuant to board of governors regulations.

(Added by Stats. 1995, Ch. 758, Sec. 125. Effective January 1, 1996.)
