1801 Panorama Drive, Bakersfield CA 93305

Dear Hiring Supervisor,

It will be my second semester at Bakersfield College, beginning Spring 2019. Bakersfield College has always had a major impact on today's generation and it is amazing to see how people talk positive about the campus, and how kind the students are and how hard working the staff is. That is the reason I would wish to become apart of BCSGA is because I want to be more experieced on what this job will require me to do and I enjoy going to all of the events you guys put on. I spend most of my time asking questions in the Student life office trying to get involved so I am familiar with everything that goes around. I am very interested in this job because this job requires for someone to be good with people which I believe I am. I currently enrolled in 14 units, but I will be available to work without any conflict because I spend all of my time at BC. If I were to get the position of being in BCSGA I will do my best to face the tasks I am supposed to

accomplish. I have no actual real job work experience, if I get the opportunity to become a BCSGA employee it will be my first real job.

I was in my high school student body council as the senior class Vice President so I am a responsible person, I do have good communication skills, and I work well with other people, I am always on time when it comes to any job or task. I was also apart of my high school student snack store where I learned how to operate a cashier and was not afraid to talk to customers. I wish for the opportunity to show you what I got to become apart of the BCSGA team. If you wish to contact me my email and phone number are at the top. Thank you, for your time and consideration.

Sincerely,

Hugo Maldonado Garcia
