

Clicker Survey summary

14 yes respondents

Models used from survey: Model LR102 of IRespond (Engineering, Industrial Tech), CPS Einstruction (Health/PE), Iclicker (1st and 2nd generation; Biological Science, Physical Science, Social Science, Allied Health), Polleverywhere (texting or web-based; FACE)

Engineering-Industrial Tech and Physical Science have classroom sets and FACE instructor uses free site – no cost to the student

Cost to student: CPS Einstruction (\$35), iClicker (\$30 to \$48 new, \$10-\$20 used, \$23.40 rental BC bookstore)

Uses include multiple-choice questions for quizzes + lectures either anonymous or by student.

11 no respondents but interested

Why not using them include: cost to the students, not knowing how to use them, lack of standardization on campus.

Interested faculty use of clickers: will use for multiple choice questions, attendance.

Features wanted include multiple-choice responses, very short answer and numbers input, and costs below \$25.
