

Letter of Intent

My name is Kirissa Roberts and I am interested in the student activities manager position as well as the student organization funding manager position for the Bakersfield College Student Government Association. There are many reasons that I am interested in these different positions. One of the reasons being that I'm wanting to become a Certified Public Accountant and I feel like these positions would be really great hands on experience for me. Not to mention that I've had some experience dealing with budgets from my financial and managerial accounting classes that I've taken with Professor Krausse here on campus. I strongly feel like these positions will help and guide me one step closer to becoming an accountant. Bakersfield College has a student government to make the campus a livelier, community-oriented, and enjoyable environment for its students and staff by letting everyone's voice and opinion be heard.
